

# GOAL 6

United Nations Statistics Division

High Level Political Forum  
New York

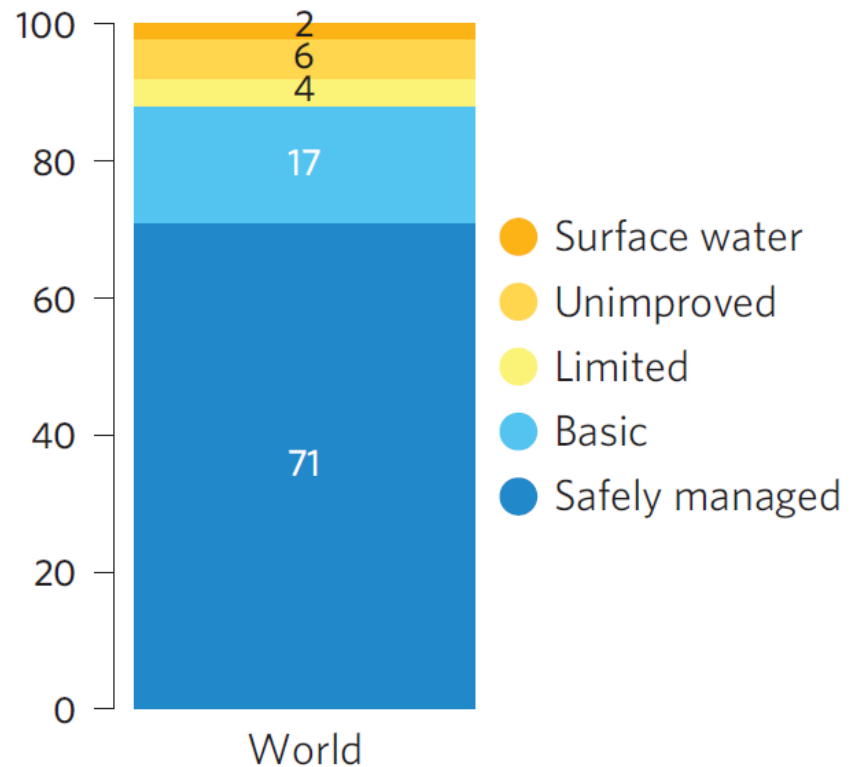

# Ensure availability and sustainable management of water and sanitation for all

Globally, **3 in 10** people lack safely managed drinking water services

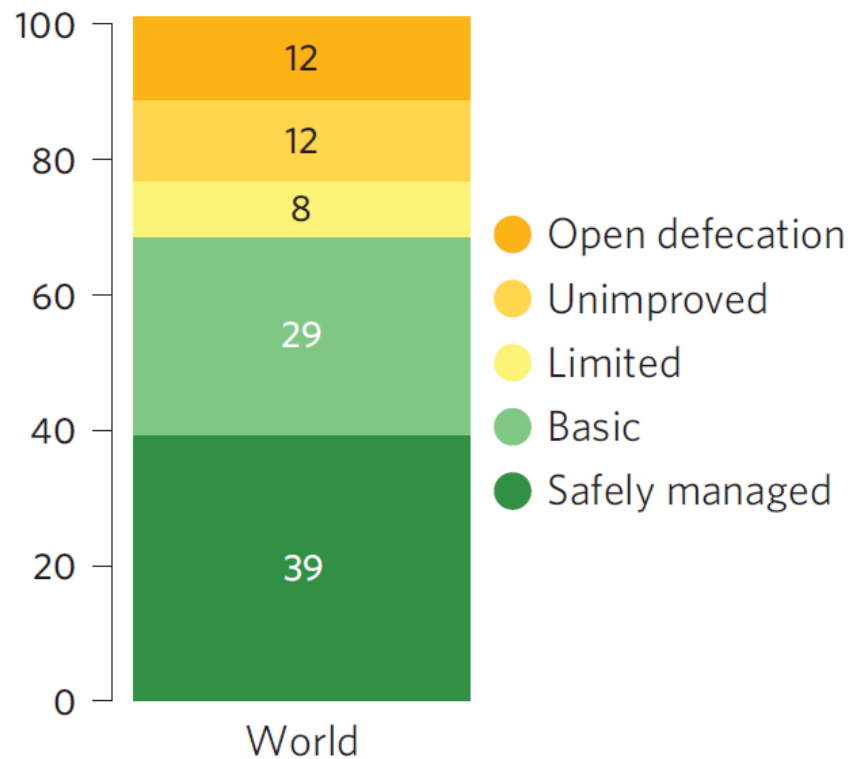

Proportion of population using different types of drinking water services, 2015 (percentage)

# Ensure availability and sustainable management of water and sanitation for all

Proportion of population using different types of sanitation services, 2015 (percentage)

A **majority** of the world's population still lack safe sanitation and **892 Million** people continue practise open defecation

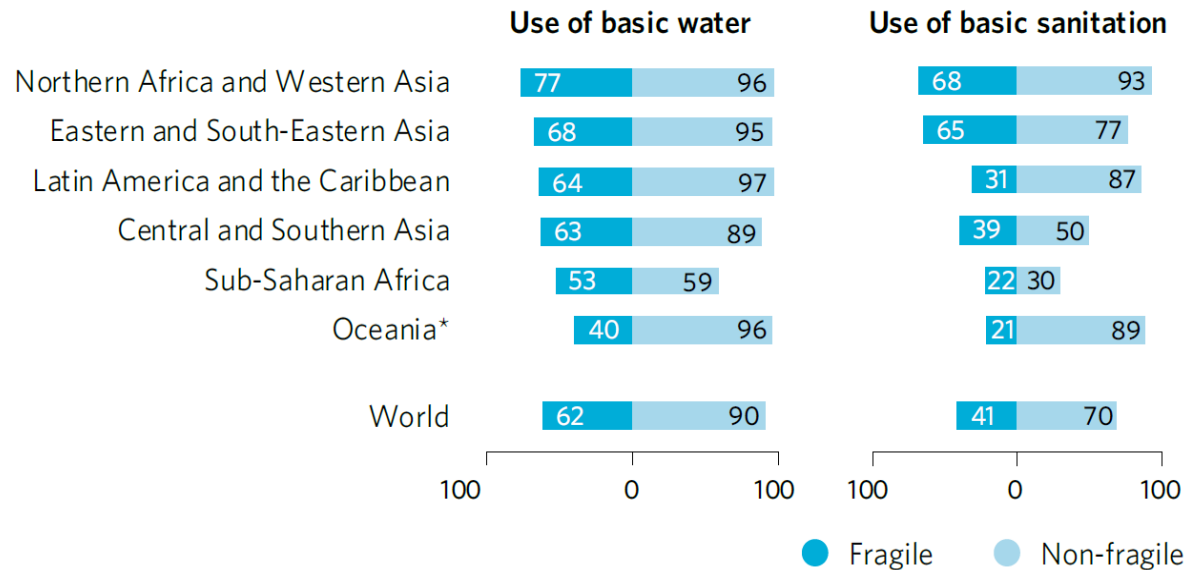

# Ensure availability and sustainable management of water and sanitation for all

Conflict, violence and instability are **curtailing progress** on water and sanitation

Proportion of the population using basic water and basic sanitation services in fragile and non-fragile states, 2015 (percentage)

# Ensure availability and sustainable management of water and sanitation for all

Level of water stress: freshwater withdrawal as a proportion of available freshwater sources, around 2014 (percentage)

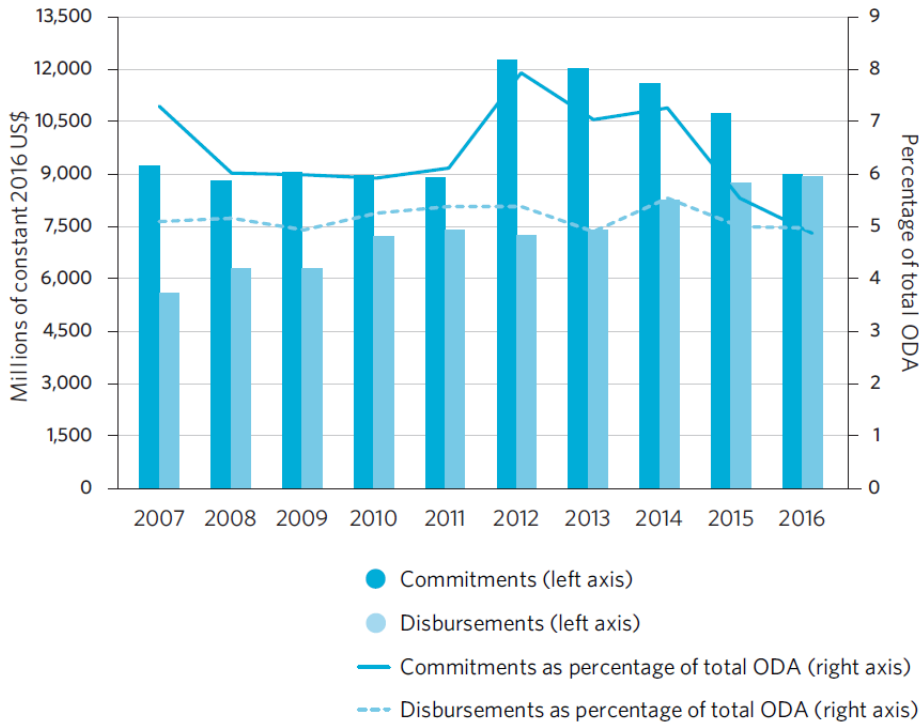

— 25%: Threshold that marks the beginning stages of water stress

Northern Africa and Western Asia are **hardest hit by water stress**, indicating the strong probability of **future water scarcity**

# Ensure availability and sustainable management of water and sanitation for all

Official development assistance commitments and disbursements to the water sector, 2007–2016 (millions of constant US\$ and percentage of total ODA)

Funding commitments to the water sector **dropped by more than 25 per cent** from 2012 to 2016

**SUSTAINABLE  
DEVELOPMENT GOALS**
