United Nations Office for Partnerships

In Co-operation with: _____

Invitation	4 - 5
Welcome Adresses	6 - 9
Programme Wednesday/Thursday	10 - 13
Parallel Sessions 1/2/3/4/5	14 - 19
Programme Friday	20 - 21
Parallel Session 1A/1B/2	22 - 23
Location Plan	24 - 25
Contact Persons	26 - 27

Berlin High-level Dialogue on Implementing Rio+20 Decisions on Sustainable Cities and Transport

EUREF-Campus, "Gasometer", Berlin Schöneberg, 19-21 June 2013

in Rio de Janeiro for the United Nations Conference on Sustainable Development, also known as "Rio+20", which concluded with a universal recommitment to the principles of sustainable development and the adoption of a global consensus on "The future we want".

Rio+20 recognized the urgency of addressing the trends and challenges of urbanization, in particular in developing countries, including rapid private motorization, traffic congestion, inefficient fuel use, and air pollution. Rio+20 called upon governments to "support the development of sustainable transport systems, including energy efficient multi-modal transport systems, notably public mass transportation systems, clean fuels and vehicles, as well as improved transportation systems in rural areas" (§133). Rio+20 also emphasized "the important role of municipal governments in setting a vision for sustainable cities, from the initiation of city planning through to revitalization of older cities and neighborhoods" (§136).

The global goals of improving quality of life and sustainable development in cities are rather clear, but practical implementation and the realization of "The future we want" remains a daunting task. How can Rio+20 decisions best be implemented? Each country and each city will have to determine its own needs, and define its own solution, involving all stakeholders concerned. Greater international information exchange and cooperation will be essential to meet the challenges ahead.

Taking place on the anniversary of Rio+20, the Berlin High-level Dialogue on Implementing Rio+20 decisions on Sustainable Cities and Transport will discuss successful approaches to urban planning and transport policies and measures, identify good and best practices, and facilitate capacity building and national and international exchanges of experiences among leading decision makers, experts and practitioners, in particular also from developing countries.

Striving to become a future capital city of sustainability, Berlin has many experiences and model projects to share. The co-organizers warmly welcome your participation in the upcoming Berlin Dialogue.

Low-Carbon Transport (SloCat)

Message of **Mr. Wu Hongbo**

Under-Secretary-General for
Economic and Social Affairs of
the United Nations, New York

It is my pleasure to welcome you to the Berlin High-level Dialogue on Implementing Rio+20 Decisions on Sustainable Cities and Urban Transport. This upcoming event marks the first anniversary of the historic Rio+20 Conference. Rio+20 provided critical guidance to all stakeholders on the actions needed to achieve a transition to sustainable development and arrive at the future we want. It underscored the importance of transforming our cities, improving the links between urban and rural areas and creating multi-modal transport systems for the 21st century. The call to action is timely. Many cities and their urban populations are growing fast, in particular in developing countries. They urgently need more investment in improved public transport infrastructure and services, including better infrastructure for safer non-motorized transport, such as biking and walking in inner city areas. Such actions are fundamental for economic prosperity, securing access to employment, improving social equity and promoting healthy living – all essential building blocks of sustainable development. To make this happen, we need engagement at all levels. Governments, international organizations, the scientific community, the private sector and individuals all have an important role to play. I urge you to join the Dialogues to explore sound policy options, best practices and innovation that will contribute to the global action on sustainable development and the implementation of our shared commitments in Rio.

Mr. Wu Hongbo

Under-Secretary-General for Economic and Social Affairs of the
United Nations, New York

Message of **Mr. Joan Clos**

Executive Director, United Nations Human Settlements Programme – (UN HABITAT)

Welcome to the Berlin High-level Dialogue on Implementing Rio+20 Decisions on Sustainable Cities and Urban Transport. As Executive Director of the United Nations agency for human settlements, I am very pleased to co-organize this important event. Within a generation, we've added over one-and-a-half billion people to the planet – a billion alone in our cities. Towns and cities are increasingly the centres of economic growth and employment, domestic consumption and production and social development. However, urbanization, especially in developing countries, leaves vast amounts of the poor living in deplorable conditions – in slums and squatter areas without access to proper shelter, to clean water and adequate sanitation, education or health services. Rio+20 highlighted the important role of municipal governments in setting a vision for sustainable cities, including the development of sustainable transport systems to alleviate congestion, pollution and health risks associated with the pressures of urban living, while also improving the access to cities for rural populations. Much remains to be done. It is therefore with great pleasure that I invite you to join the Berlin high-level Dialogue to discuss how all stakeholders, from national to local governments, from industry associations to individuals, can ensure we together can build the foundation for sustainable living.

Joan Clos

Executive Director United Nations Human Settlements Programme, Nairobi (UN HABITAT)

Message of **Mr. Jochen Flasbarth**,

President, German Federal
Environment Agency

Dear Participants of the Conference Berlin High-level Dialogue on Implementing Rio+20 Decisions on Sustainable Cities and Transport, as the President of the Federal Environment Agency I would like to welcome you all to Berlin. Sustainable cities and transport are an important topic for our future. I am therefore very proud that the High-level Dialogue takes place in Germany.

The mobility of people and goods is increasing with the rise of globalization. It connects economies, rural areas with cities, and opens up new horizons. Traffic and transport infrastructure is the basis for new developments. The Rio+20 Conference in 2012 stressed the role of transport as an essential basis for sustainable development. Given the rapid growth of cities, especially urban transport needs to be environmentally friendly and not detrimental to the health of people and their surroundings. From an environmental point of view, the immense increase in urban transport poses new challenges especially engineers, urban and traffic planners and politicians at all levels, with concerns for air quality, climate protection, noise protection, soil and land protection as well as biodiversity, at the centre.

Despite intense efforts in the past and success with the reduction of environmental pollution, faster progress is necessary to conserve the environment, its quality and that of our lives. I am happy, that these challenges will be discussed at the High-level Dialogue and at the exchanges among high-level experts provides the momentum needed to make progress on the issue of sustainable development of cities and urban transport.

I wish all the participants an inspiring Conference and a pleasant stay in the capital of Germany.

Jochen Flasbarth

President of the German Federal Environment Agency

Message of **Mr. Klaus Wowereit**
Governing Mayor of City of Berlin

Distinguished participants in the Rio+20 follow - up meeting in Berlin, On behalf of the people of Berlin, I would like to welcome you to Germany's capital city. The international community set ambitious goals for itself at the Rio conferences. In this context, it is becoming more and more obvious in the 21st century's "urban age" that change in the cities is vital to making the transition to efficient, climate-friendly energy use and mobility that conserve resources. Berlin is taking up that challenge. Our state government is aiming at making Berlin a climate - neutral city and a model community for urban technologies by the middle of the century. At the same time, it wants to reconcile ecological sustainability, social justice, and economic efficiency. The prerequisites for meeting this goal are already in place. For instance, Berlin has made huge strides over the last few decades in refurbishing buildings to improve their energy efficiency. Thanks to decades of development, our transport system is already very dense, and we are continuing to pursue climate-friendly mobility suited to an urban environment. With its excellent research, scientific, and academic institutions and its creative potential, and as a start up capital for the digital economy, Berlin is a unique breeding ground for the solutions of tomorrow. Its eminent strengths in research and development of sustainable technologies include clean energy, storage technologies, and energy efficiency. As one of Germany's electric-mobility pilot regions, we are both a research lab and a showcase for new mobility concepts. The Berlin Senate has committed itself to doing its share to achieve the Rio goals. I am confident that we will be able to contribute valuable experience and expertise, especially when it comes to energy and mobility. In this spirit, I would again like to welcome you to Berlin as well as wish you a productive conference and an inspiring stay in Germany's capital city.

Klaus Wowereit
Governing Mayor of Berlin

WEDNESDAY, 19. June 2013

Venue: EUREF-Campus "Gasometer"

14:00 Official Welcome

Welcome Addresses: The importance of Local Initiatives in Enhancing Sustainability of Cities and Transport

Mr. Michael Müller, Senator for Urban Development and Environment and Mayor of the City of Berlin

Ms. Almut Hartwig-Tiedt, Secretary of State of the Ministry of Environment, Health and Consumer Protection of the Federal State of Brandenburg

Mr. Nikhil Seth, Director, Division for Sustainable Development, United Nations Department of Economic and Social Affairs (UN DESA), New York, USA

Keynote Addresses:

Ambassador Anwarul K. Chowdhury, Chairman of Global Forum on Human Settlements (GFHS), former Under-Secretary-General and High Representative of the UN

Ms. Kathrin Schneider, Secretary of State of the Ministry for Infrastructure and Agriculture of the Federal State of Brandenburg

Introduction of Participants and Visiting Mayors and Senior Representatives of Local Authorities

15:15 Briefing Session 1: Urban Transport and eMobility Projects Berlin

The Berlin Transport Strategy; Mr. Friedemann Kunst, Head Department of Transport, Senate Department of Urban Development and the Environment

Electromobility Strategy in the Capital Region; Mr. Thomas Meißner, Deputy Director, Berlin Agency for Electromobility eMO

16:30 Coffee Break (Café am Wasserturm)

17:00 Briefing Session 2: Model Project on Eco-City Development in China and Perspectives for International Cooperation

Sponsored by China Power New Energy Development Company Limited (CPNE)

The Chinese Green Health City Project - Global Partnership for a Sustainable Future;
Ms. Li Xiaolin, Chairman, China Power New Energy Development Company Limited (CPNE),
Hong Kong, China

Sustainable Infrastructures as a Global Task and Urban Chance;
Prof. Dr. Dieter Flämig, INFRAWIND EURASIA

Sustainable Urban Approaches to an Efficient Balance between Human Beings and Nature;
Prof. Peter Ruge, Ruge Architekten

Future Medicine as a part of a Green Health City;
Prof. Dr. Elisabeth Steinhagen-Thiessen, Humboldt-Universität zu Berlin

Smart Grid as a Backbone of a Smart City; Prof. Dr. Kai Strunz, TU Berlin

18:30 Visits of Fair and Test Drive Options

19:30 Networking and Welcome Cocktail Reception ("Café am Wasserturm" and "Audimax")

Dinner Speeches:

Welcome Remarks by Coorganizers

Ms. Cornelia Yzer, Senator for Economic Development, Technology and Research of the
City of Berlin

Ms. Li Xiaolin, Chairman, China Power New Energy Development Company Limited (CPNE),
Hong Kong, China

Dr. Veit Steinle, Director-General, Environmental Policy and Infrastructure, Departmental
Policy Issues, Federal Ministry of Transport, Building and Urban Development, Berlin, Germany

THURSDAY, 20. June 2013

Venue: EUREF-Campus "Gasometer"

10:00 **Opening session of High-level Morning Plenary Session**

Welcome Statements

Mr. Jochen Flasbarth, President, German Federal Environment Agency

Mr. Gyan Chandra Acharya, Under Secretary-General and High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States (UN-OHRLLS)

Keynote Statements

Shrimati Meenaxiben Dashrathbhai Patel, Mayor, Ahmedabad Municipal Corporation, Ahmedabad, India

Ms. Pam O'Connor, Mayor, City of Santa Monica, California, USA

11:15 **Moderated High-level Dialogue on Implementing Rio+20: Multi-stakeholder Cooperation and win-win Scenarios in Urban Development and Transport Planning**

Moderators:

Mr. Kurt Bodewig, former Federal German Minister of Transport and
Mr. Nikhil Seth, Director, UN DESA Division for Sustainable Development

Guests / Panelists:

Mr. Amorn Kitchawengkul Deputy Governor of Bangkok, Bangkok Metropolitan Administration (BMA)

Ms. Li Xiaolin, Chairman, China Power New Energy Development Company Limited (CPNE), Hong Kong, China

Shri Sagar Naik, Mayor of Navi Mumbai, India

Mr. Dayo Mobereola, Managing Director and CEO of Lagos Metropolitan Transport Authority (LAMATA), Lagos, Nigeria

Mr. Jamil Mujahed, Director General, Land Transport Regulatory Commission, Amman, Jordan

Mr. Alistair Clark, Managing Director, Environment and Sustainability Department, European Bank for Reconstruction and Development (EBRD)

13:00 **Lunch Break (EUREF-Campus "Alte Schmiede - Restaurant")**

14:00 **Parallel Sessions with Coffee Break** (see detailed information)

18:00 **Plenary Session: Conclusions and Recommendations**

Rapporteurs of parallel sessions will report on main points

19:00 Global Forum on Human Settlements Award Ceremony

Moderators:

Mr. Florian Lennert, Innovation Centre for Mobility and Societal Change (InnoZ) GmbH and Ms. Katharina Brecht, UN Representative at the Baltic Sea Forum, Willich, Germany

Brief Welcome Remarks by Moderators

Speech by Ambassador Anwarul K. Chowdhury, Chairman of Global Forum on Human Settlements (GFHS), former Under-Secretary-General and High Representative of the UN

Announcements of the Winners and Presentation of the Awards

PARALLEL SESSION 1

Venue: EUREF-Campus "Gasometer"

Global Forum on Human Settlements 2013: Initiatives and Best Practices in Sustainable Urban Development and Eco-cities

Co-organizers:

Global Forum on Human Settlements (GFHS), United Nations Department of Economic and Social Affairs (UNDESA), United Nations Environment Programme (UNEP), Local Governments for Sustainability (ICLEI)

Moderator:

Ambassador Anwarul K. Chowdhury, Chairman of Global Forum on Human Settlements (GFHS), Former Under-Secretary-General and High Representative of the UN

Opening Remarks:

Mr. Lu Haifeng, Secretary-General, Global Forum on Human Settlements (GFHS)

Mr. Nikhil Seth, Director, UN DESA Division for Sustainable Development (tbc)

Mr. Arab Hoballah, Chief of Sustainable Consumption and Production (UNEP/DTIE)

Mr. Wolfgang Teubner, Managing Director ICLEI-European Secretariat

Ceremony:

GFHS to Grant the Certificates to certain Cities and Corporates to recognize their Social Responsibility

Part I: Initiatives in Sustainable Cities

Moderator: Mr. Wolfgang Teubner, Managing Director ICLEI-European Secretariat

Rapporteur: Mr. Craig Perkins, President & Executive Director of the Energy Coalition, USA

Presentations:

Global Initiative for Resource Efficient Cities;

Mr. Arab Hoballah, Chief of Sustainable Consumption and Production (UNEP/DTIE)

Implement Rio+20 Decisions: Demonstrate New Urbanization-Standards of the Initiative of International Green Model City (IGMC);

Mr. Lu Haifeng, Secretary-General, Global Forum on Human Settlements (GFHS)

Part II: Best Practices in Sustainable Urban Development and Eco-cities

Moderator:

Mr. Wang Dehui, Consultant to Environmental Impact Assessment Centre, Ministry of Environmental Protection, China, former Deputy Director-General of Nature Conservation Department, SEPA

Rapporteur: Mr. Craig Perkins, President & Executive Director of the Energy Coalition, USA

Presentations:

Oeiras Urban Development: Jump from a Suburban City into a Developed City in 20 years, Silvia Isabela Breu, Director, Oeiras Municipal Development Office, Portugal

Pioneering low carbon and sustainable tourism in Mission Hills;
Mr. Joseph Chan, Sustainability Director of Mission Hills Group

Panel Discussion: Implement the Rio+20 Decisions, Move towards the Low-carbon City,

Moderator: Mr. Arab Hoballah, Chief of Sustainable Consumption and Production (UNEP/DTIE)

Rapporteur: Mr. Craig Perkins, President & Executive Director of the Energy Coalition, USA

Panelists:

Ms. Pam O'Connor, Mayor, City of Santa Monica, California, USA

Mr. Reinhard Müller, CEO, EUREF AG and Dr. Jürgen Peters, CEO, Innovation Centre for Mobility and Societal Change (InnoZ) GmbH

Mr. Volker Hartkopf, Director of Center for Building Performance and Diagnostics and Professor of School of Architecture Carnegie Mellon University, Pittsburgh, USA

Mr. Naoki Mimuro, Chief Representative of the City of Yokohama in Europe

PARALLEL SESSION 2

Venue: EUREF-Campus "InnoZ Plattform elektroMobilität"

Linking Urban Development and Mobility – Approaches and Success Stories in International Cooperation

Co-organizers:

Ministry of Economic Cooperation and Development (BMZ), German Agency for International Cooperation (GIZ), German Development Bank (KfW)

Moderator:

Mr. Cornie Huizenga, Convener of Partnership on Sustainable Low-Carbon Transport (SloCat)

Rapporteur:

Dr. Dominik Schmid, GIZ

Presentations:

Key Issues of Linking Urban Development and Mobility;
Mr. Stefan Opitz, Director of Division Water, Energy, Transport, GIZ

Setting the Stage – International Experiences and trends;
Mr. Hiroaki Suzuki, Lead Urban Specialist, World Bank

Promotion of Sustainable Mobility in Ukrainian Cities;
Ms. Ksenia Semenova, Head of Ukrainian Center for Cycling Expertise, Ukraine

Preparation of Sustainable Urban Transport Masterplan;
Ms. Clarence Uatjavi M Rupingena, Manager Public Transportation, City of Windhoek, Namibia

Development of Public Urban Transport in Lagos;
Dr. Dayo Mobereola, Managing Director and CEO of LAMATA, Lagos, Nigeria

Summary and Outlook;

Mr. Michael Gruber, Senior Sector Economist; KfW - German Development Bank

PARALLEL SESSION 3

Venue: EUREF-Campus "Alte Schmiede"

Multimodal Transport Concepts for Cities

Co-organizers:

Innovation Centre for Mobility and Societal Change (InnoZ) GmbH, UN DESA Division for Sustainable Development

Moderators:

Mr. Florian Lennert, Director of Intelligent City, Innovation Centre for Mobility and Societal Change (InnoZ) GmbH and Dr. Andreas Mehlhorn, Head of Mobility Consulting, Siemens AG

Rapporteur:

Dr. Jürgen Perschon, Executive Director, European Institute for Sustainable Transport (EURIST)

Presentations:

Innovative Business Models for Multimodal Mobility;

Mr. Ralf Baron, Partner, Global Head of Travel & Transportation Group, Arthur D. Little GmbH

Smart Mobility for Smart Cities;

Mr. Alain Flauch, Secretary General, International Association of Public Transport (UITP)

Public Transport – Key Player and Backbone of Modern Multimodal Mobility;

Mr. Martin Roehrleef, Head of Staff Department „Mobility Alliance“, üstra Hannoversche Verkehrsbetriebe AG, Hannover, Germany

Pilot Projects of the Austrian Public Transport Sector and the Role of Integrated Mobility Platform Approaches for Public Transport in Austria;

Mr. Reinhard Birke, Project Coordination Research, Technology, Innovation, Wiener Stadtwerke and Ms. Nicole Stroj, Coordinator Integrated Mobility, Austrian Federal Railways (ÖBB)

Los Metrocables de Caracas - Aerial Cable Cars as an Innovative Solution for Urban Transport;

Mr. Pedro Olivares, Director of F & S Consulting SA Caracas

The Role of Cycling as a Part of Urban Mobility;

Dr. Bernhard Ensink, Secretary General and Velo-city Series Director European Cyclist Federation (ECF)

Simpl'eco'nvenient;

Mr. Philipp Wex, Senior Manager, Daimler Business Innovation, Germany

Multimodal Transport - an OEM Perspective;

Dr. Stephan Herbst, General Manager Energy Research Group (Toyota)

PARALLEL SESSION 4

Venue: EUREF-Campus "Garage"

Exchange on Urban Planning for Sustainable Transport

Co-organizers:

London School of Economics and United Nations Human Settlements Programme (UN-Habitat)

Moderators:

Mr. Phillip Rode, London School of Economics and Andre Dzikus, Coordinator, Urban Basic Services Branch, UN Habitat, Nairobi

Rapporteur: (tbc)

Presentations:

Cities for All People - Examples of Transitions;
Mr. Gil Penalosa, Executive Director, 8-80 Cities, Toronto, Canada

The Move towards Sustainable Transport in London;
Mr. Steve Kearns, Transport for London

Promoting Sustainable Transport Solutions in Ethiopia;
Ms. Tibleste Asgedom, Bureau Vice Head, Addis Ababa City Administration Road & Transport Bureau, Ethiopia

Intelligent Urban Mobility Solutions;
Mr. Martin Ertl, Chief Innovation Officer, Bombardier Transportation

Smart Mobility in Yokohama;
Mr. Naoki Mimuro, Chief Representative of the City of Yokohama in Europe, Frankfurt

Transforming Cities to Foster Responsive, Affordable Mobility - Lessons from Detroit and Berlin;
Mr. Lawrie Robertson, Director of Strategic Planning, Buro Happold

Foresight in Hindsight. A History of Predictions;
Mr. Reinier de Graaf, Partner, MA Rotterdam

Promoting Cooperation for Sustainable Urban Development - The OECD Green Cities Programme;
Mr. Tadashi Matsumoto, Senior Policy Analyst, Public Governance and Territorial Development, Organization for Economic Cooperation and Development (OECD), Paris, France

The Role of Taxi Fleets in Urban Public Transport;
Mr. Oleg Kamberski, Head, Passenger Transport and Taxis, International Road Transport Union

PARALLEL SESSION 5

Venue: EUREF-Campus "Conference room Schneider electric"

Sustainable Energy for Sustainable Transport

Sponsored by Vattenfall Europe GmbH

Co-organized: Vattenfall GmbH

Moderators:

Mr. Marcus Franken, Journalist, Editor in Chief zeo2

Rapporteur:

Mr. Gunnar Groebler, City Business Partner Berlin, Vattenfall GmbH

Presentations:

Integration of Smart Energy Solutions into Smart Grids: Key Success Factors for a Sustainable City Development;
Dr. Helmar Rendez, Head of BU Distribution and Chairman of the Management Board, Vattenfall

Smart Infrastructures;
Ms. Rada Rodriguez, CEO Schneider Electric GmbH and Country President Germany

PRIMOVE - Introducing the Future of Electric Mobility for Cities;
Mr. Christian Köbel, Director R&D Programme Management, Bombardier

Siemens eHighway - The Efficient and Cost-effective Solution for Heavy Duty Road Transport;
Mr. Hasso Georg Grünjes, Infrastructure & Cities Sector, Mobility and Logistics Division, Technology and Innovation, Siemens AG

Electromobility has a Bright Future. Make it Happen with Bosch;
Mr. Markus Schmidt, Member of the Executive Management, Bosch Automotive Electronics, Executive Vice President Sales

Hydrogen, Fuel Cell and Battery Electric Drives – Federal Market Preparation Programs in Germany, Status Quo & Outlook;
Mr. Dr. Klaus Bonhoff, Managing Spokesperson of National Organization Hydrogen and Fuel Cell Technology (NOW)

FRIDAY, 21. June 2013

Venues: EUREF-Campus "Garage" and "InnoZ Plattform elektroMobilität"

9:30 Parallel Sessions (see detailed information)

12:00 Optional Sustainable Transport Study Tour

The Siemens Tour:

Visit to eHighway Demonstration Track (Gross Dölln)

A bus shuttle will be provided. The journey from the EUREF-Campus to the demonstration track will take app. 1,5 h. You will have the opportunity to visit the demonstration track of the eHighway system. At the location the infrastructure will be presented and explained. Furthermore you will have the opportunity to see a demonstration vehicle in operation. www.siemens.com/mobility/ehighway. Lunch bags will be provided.

The Federal Environment Agency Tour:

Bus Transfer or Guided Group Rides on Bikes

Bus transfer or guided group rides on bikes: Besides visiting the most important tourist sites of Berlin like the German Reichstag, Brandenburger Tor or the holocaust memorial, you will visit the Energy-Efficiency-House Plus which is a self-sustaining house in the middle of Berlin. It produces and covers its own energy needs. Lunch stop at Josties (Potsdamer Platz).

17:30 End of Tour and of the Berlin High-level Dialogue

PARALLEL SESSION 1A

Venue: EUREF-Campus "InnoZ-Plattform elektroMobilität"

Roundtable on Sustainable Urban Transport for Greener and more Sustainable Cities

Co-organisers: UN DESA, ICLEI, GFHS, UNCRD

Moderator:

Mr. Ralph Wahnschafft, Acting Chief, Emerging Issues Branch, Division for Sustainable Development, UN DESA

Presentations:

Transport and Climate Change in Urban Areas;

Mr. Michael Cramer, Member of European Parliament, Transport Spokesperson of the Greens/EFA Group in the European Parliament

Rail – the Backbone of Sustainable Urban Transport;

Mr. Nick Craven, Manager of Unit Sustainable Development, International Union of Railways (UIC)

Sustainable Land Transport System - Singapore's Experience;

Mr. George Sun, Deputy Director for Research and Publications, Land Transport Authority, Singapore

The high Cost of Parking;

Mr. Michael Manville, Assistant Professor Cornell University, USA

Future Urban Mobility – Relevance for Car Makers;

Ms. Caroline Reichert, PSA Peugeot Citroën, Group Operations, Head of Mobility, France

Electric Two Wheelers in China: Market analysis and prospects for international cooperation;
Ms. Jia Fu, Market Analyst, Beijing, China

Promotion of Sustainable Transport in Kampala, Uganda;
Mr. Patrick Kayemba, Executive Director, FABIO, Kampala, Uganda

PARALLEL SESSION 1B

Venue: EUREF-Campus "Alte Schmiede"

Roundtable on Sustainable Urban Transport for Greener and more Sustainable Cities

Co-organisers: UN DESA, ICLEI, GFHS, UNCRD

Moderator:

Mr. Peter O'Neill, Chief, Transport Policy and Development Section, Transport Division, The United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP).

Presentations:

Future of Urban Mobility: Results of Arthur D. Little Global Benchmarking Study;
Mr. François-Joseph Van Audenhove, Partner, Head of Travel & Transportation Group in Benelux, Arthur D. Little Benelux NV/SA

Rail – the Backbone of Sustainable Urban Transport;
Ms. Judit Sandor, Sustainability and Environment Manager UNIFE –the European Rail Industry

Urban Transport Planning for Sustainable Urban Development: Policies and Projects for Sustainable Transport Development in Bogota;
Mr. William Fernando Camargo Triana, Director of Transportation and Public Services, Secretariat of Planning, Bogota City

Environmentally Sustainable Transport Programmes in Asia;
Mr. Choudhury R. C. Mohanty, Environment Programme Coordinator, United Nations Centre for Regional Development (UNCRD), Nagoya, Japan

Promotion of Sustainable Transport in Eastern Europe, Central Asia and the Caucasus;
Martin Magold, Chief of Sustainable Transport Section, Transport Division, United Nations Economic Commission for Europe (UNECE)

Promotion of Sustainable Urban Transport in Sri Lanka; (tbc)

PARALLEL SESSION 2

wVenue: EUREF-Campus "Garage"

Global Consultation on Sustainable Transport in the Post – 2015 Development Agenda

Co-organisers: UN DESA, SLoCaT partnership

Moderators:

Mr. Tom Hamlin, Senior Interregional Advisor on Sustainable Transport (UN DESA);
Mr. Cornie Huizenga, Convener of Partnership on Sustainable Low-Carbon Transport (SLoCaT)

Speakers:

Mr. Cosmas Takule, Dar es Salam Rapid Transit, Tanzania

Mr. Carlos Alberto Vieira Muniz, Secretary of the Environment and former deputy Mayor of Rio de Janeiro, Brazil

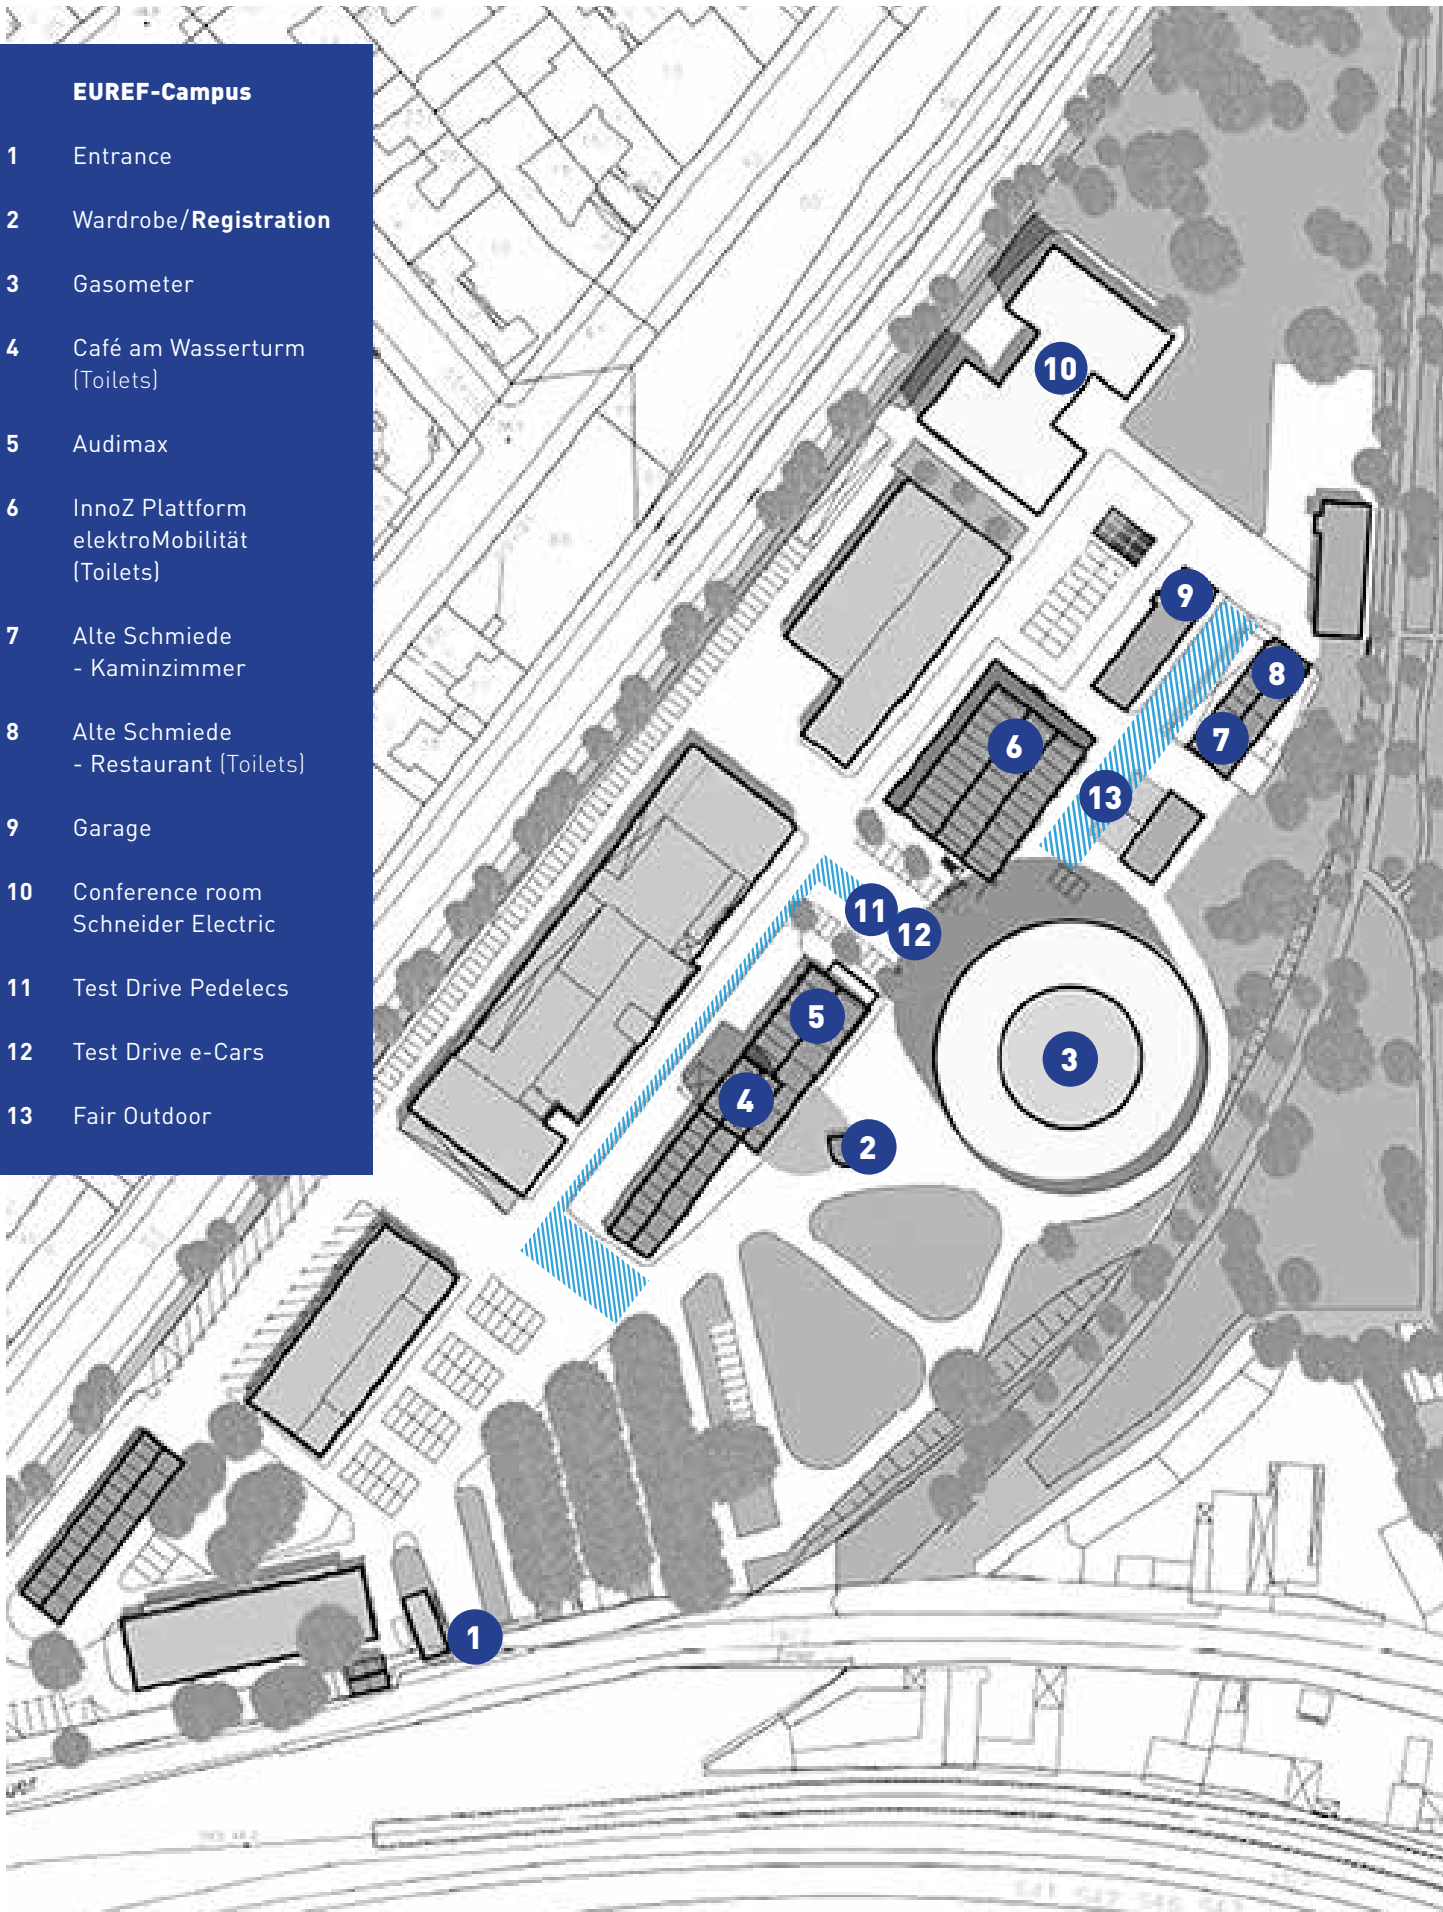

Mr. Wendy Aritenang, Senior Advisor, Ministry of Transport of Indonesia

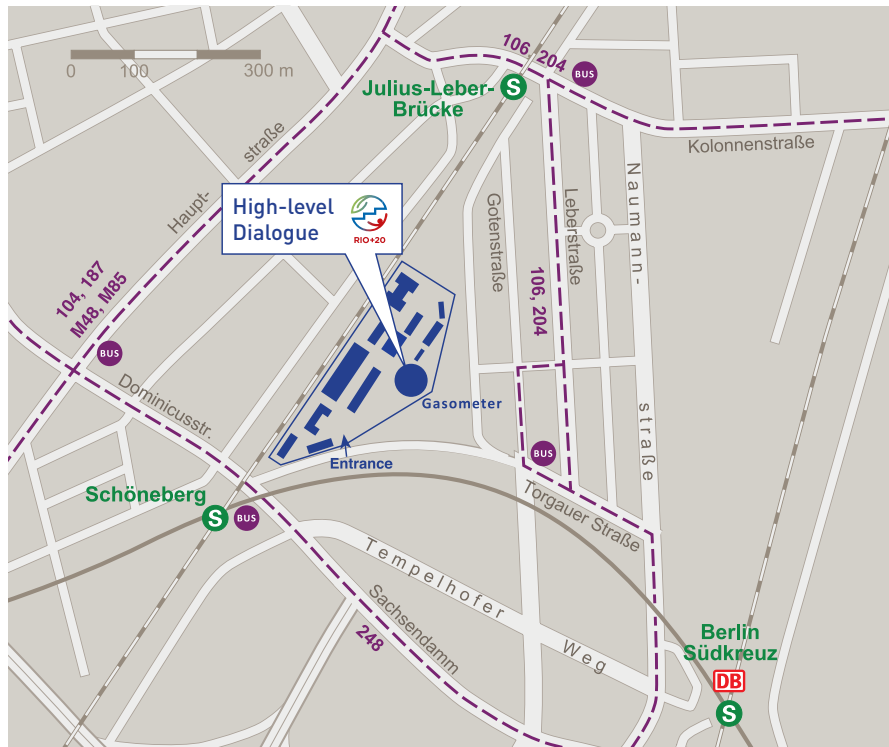

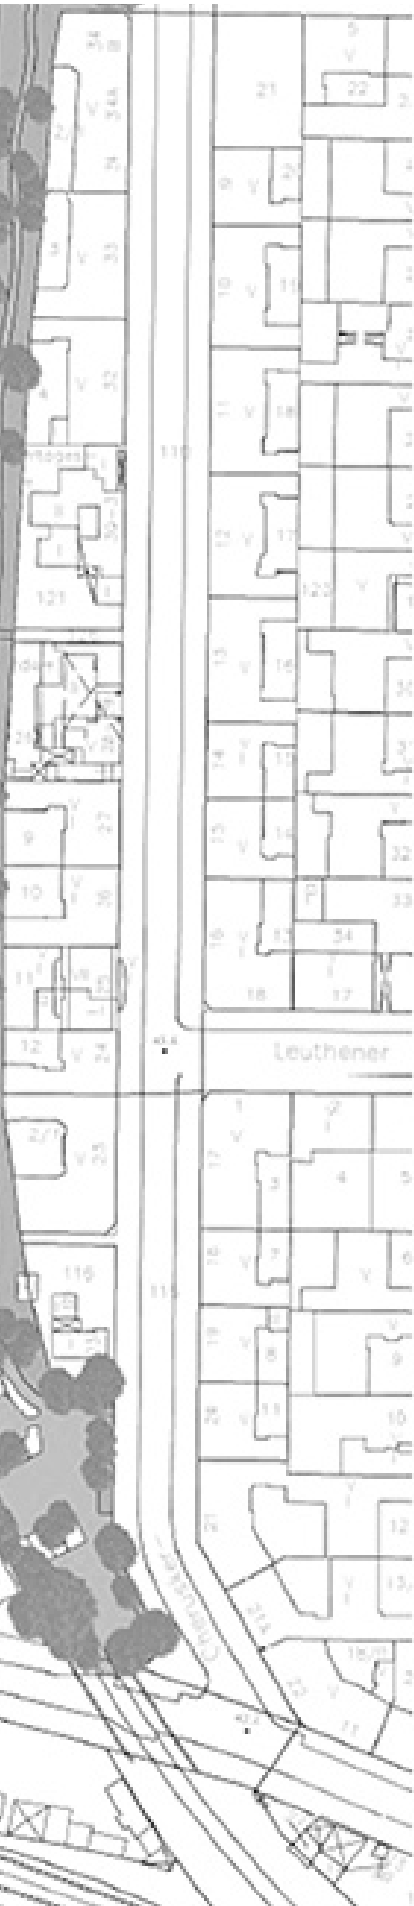

Mr. Charles Opiyo-Owalu, Assistant Commissioner, Ministry of Works and Transport, Uganda

EUREF-Campus

- 1 Entrance
- 2 Wardrobe/Registration
- 3 Gasometer
- 4 Café am Wasserturm (Toilets)
- 5 Audimax
- 6 InnoZ Plattform elektroMobilität (Toilets)
- 7 Alte Schmiede - Kaminzimmer
- 8 Alte Schmiede - Restaurant (Toilets)
- 9 Garage
- 10 Conference room Schneider Electric
- 11 Test Drive Pedelecs
- 12 Test Drive e-Cars
- 13 Fair Outdoor

Public transport in Berlin:

www.bvg.de

S-Bahn:

Südkreuz – take S 41/S 42 (Ring) to S Schöneberg (one station)

Berlin Hauptbahnhof:

Take S 7 to Friedrichstrasse and change there to S1 (ground floor) to station Schöneberg (exit Dominicusstr.)

At the station Schöneberg the lines from the S1 as well the ring lines S 41/S 42 stop

by Bus:

Bus 248 Station Torgauer Str.
M 46 Station S Schöneberg

by Car:

At the EUREF Campus there is no opportunity to park a private car take a taxi

by Taxi:

+49 (0) 30 26 10 26	Funk Taxi Berlin
+49 (0) 30 26 30 00	Quality Taxi
+49 (0) 30 21 02 02	City Funk

Also Smartphone-Apps provide good information about getting around in Berlin:

“Taxi-Berlin” is an App for calling Taxis in Berlin

“FahrInfo Berlin”; “Öffi” are Apps for the public transport in Berlin

“DB Navigator” is an App for train journeys
