

STAKEHOLDER  
FORUM

# Stakeholder Forum

FOR A SUSTAINABLE FUTURE

The background is a collage of four images: a person on a bicycle with a cargo basket, a group of people in a meeting, a person in a lab coat in a pharmacy, and a person in a blue shirt working with a laptop.

## Sustainable Development Goals e-Inventory

Crowdsourcing proposals for post-2015 to  
feed into the Intergovernmental  
Process on SDGs

# Objectives

- To provide stakeholders with a platform to outline and disseminate their visions for new universal goals for sustainable development
- To help stakeholders become better informed about the wide range of proposals, expectations and evidence-based arguments on SDGs and other global goals
- To provide a mechanism for stakeholders to feed into the intergovernmental process on SDGs
- To increase the likelihood of an eventual SDGs framework which fully integrates the three dimensions of sustainable development

# Method

- Map existing proposals for global goals
- Enable stakeholders to submit their own recommendations. This includes both:
  - Proposals for specific goals, targets and indicators
  - Proposals for the principles and themes that the new framework should be based upon and address
- Provide an interactive platform to allow stakeholders to update their submissions and give feedback on other proposals.

# Analysis and Advocacy

- Regular analysis of submissions will be undertaken to identify trends, commonalities and knowledge gaps
- This analysis will be disseminated amongst stakeholders and used to inform the intergovernmental process on SDGs, via stakeholder engagement channels for the Open Working Group
- Users of the tool will be able to conduct their own analysis and identify areas of mutual interest

# Partners

The e-Inventory is supported by a number of partner organisations and networks from all global regions to:

- Reach a diverse range of stakeholders
- Help tailor the capacity building resources to the diverse needs of stakeholders
- Ensure information is optimal for advocacy purposes
- Provide strategic inputs
