DEVELOPMENT FINANCE PORTAL

Financing for Development Tool providing access to investment-enabling information on developing countries

Agenda

- **Promise of the Monterrey Consensus:** *“Mobilizing Private Sector Investment”*
- **The Persistent Challenge:** *How to Facilitate Investment? Broadcast Success Stories? Reach Investors Worldwide? Provide Information on Transaction Services?*
- **The Power of the Development Finance Portal**
 - Increasing the Capacity of Investors to Assess All Developing Countries
 - Increasing the Capacity of Host Governments to Broadcast Info to Investors Worldwide
- **Launch Portal for FfD Follow-Up:** Available as Global Public Good to Governments, Development Agencies & Private Sector

DEVELOPMENT FINANCE PORTAL

The Promise of the Monterrey Consensus

- **Enhanced Information & Disclosure:** *"...enhancing the ease of access, accuracy, timeliness, and coverage of information on countries and financial markets... would strengthen capacities of risk assessment."*
- **Greater Development Impact:** *"Attract investment flows to a much larger number of countries; achieve transparent, stable and predictable investment climates...that allow businesses...to operate efficiently and profitably...with maximum development impact...."*

Rationale for Mobilizing Private Investment for Development

From 1990 to 2005, on an annual basis:

- ODA has **doubled** to US\$120 billion
 - NGO Commitments have **tripled** to US\$15 billion
 - Net Private Capital Flows have increased **11-fold** to US\$ 551 billion
- ...while Net Official Flows have become **negative** (-US\$ 71 billion)

From 2000 to 2006, the six year total of:

- ODA was **US\$551 billion**
 - Total Net Private Capital Flows were **US\$ 2.4 trillion**
- ...while Net Official Flows were **negative** (-US\$ 160 billion)

The Persistent Challenge for Developing Country Governments

- Negative Investor Perceptions:
 - Challenge: How to Provide Credible Information on Investment Opportunities & Positive Country Developments?
 - Challenge: How to Identify & Broadcast Success Stories?
- Limited Government Budgets:
 - Challenge: How to Leverage Existing Country Assessments from Official and Private Sources?
 - Challenge: How to Reach Investors with limited Promotion Budgets?

The Power of the Development Finance Portal

“FfD Tool for Enabling Investment”

- **Global Public Good:** Only Existing Free Service that Provides One-Stop Access to Investment-Enabling Information on Developing Countries
- **Enhances Investor Capacity to Assess ALL Developing Countries:**
 - **Critical Investor Information:** Assessments & Surveys, Investment Roadmaps, Success Stories, Opportunities, Indicators, etc.

Mission & Benefits

The Monterrey Consensus recognizes that urgent development needs for poverty reduction, job creation, and improved living standards cannot be achieved without significant and sustained investment by the private sector. The Development Finance Portal implements the Monterrey Consensus objective of increasing access to information needed for greater investment across all developing countries by providing in one central location easy access to enabling information on investment opportunities, risk assessments, and transaction services.

DEVELOPMENT FINANCE PORTAL

Financing for Development Tool providing access to investment-enabling information on developing countries

Annex

- Portal Content Comparison with:
 - Search Engine (google)
 - MIGA Services
 - Development Gateway
- Examples of Success

Comparison with Search Engine an example*

- A Google search for “Ghana *Investment Roadmaps*” turned up 49,600 results, none of the top 10 results had information on the steps needed to invest, nor did the results include the Ghana Investment Promotion Centre
- In contrast, the Portal topic “Ghana>Investment Roadmaps” provides users with streamlined access to 27 critical relevant information sources, including 6 links to Ghana’s Investment Promotion Agency, covering “Investment Procedures” and “Setting Up a Business.”

**Search conducted on August 28, 2008.*

The Power of the Development Finance Portal

**Comparisons with MIGA PRI Center and FDI.net as of August 7, 2008. Measured average results returned for 14 developing countries across the globe (Latin America, Asia, Eastern Europe, Africa and Middle East).*

The Power of the Development Finance Portal

**Content Added for Selected Categories:
Development Finance Portal vs. Development Gateway Communities****

***Comparison from January 1- August 6, 2008.*

DEVELOPMENT FINANCE PORTAL

Financing for Development Tool providing access to investment-enabling information on developing countries

Examples of Successes

- **Enable Policy Maker Access to Information:**
 - African Minister of the Economy was unaware of a World Bank Competitiveness Report critical for his assessment of policy priorities
 - Investment Promotion Agencies in Africa and Latin America were unaware of success stories that had been published on their countries that could be instrumental in improving worldwide investor perceptions of their countries
- **Promote Investor Access to Information:** Companies need easy access to information for due diligence and strategic assessments
 - Financial services companies have used the Portal to access a wide range of analyses
 - The Portal has been used by test users for assessing investments in Argentina, Brazil, Costa Rica, Dominican Republic, Honduras, Guatemala, Kazakhstan, Mexico, Nicaragua, Vietnam, and Uganda
- **Disseminate Key Information:** Success stories (nearly 300); investment roadmaps (1,400+), competitiveness assessments and surveys (5,000+); risk management evaluation and services (nearly 400), national development plans and incentives (4,000+) and much more!
