| Strategy status | <input type="checkbox"/> NSDS being implemented <input checked="" type="checkbox"/> Under development <input type="checkbox"/> No NSDS |
| Date Approved | - |
| NSDS Contact Point | To be determined |
| Additional information | The first National Sustainable Development Strategy for Mauritius, entitled Vision 2020, was adopted in 1997 and was subsequently implemented. In view of emerging challenges, the new concept of ‘Maurice Ile Durable’, or ‘Mauritius Sustainable Island’, is being pursued. Its vision and strategy will be defined in 2010 following national consultations. |
