

## Norway

### Preamble:

Norway prefers short version

### Declaration:

title of declaration is missing (now says only "introduction")

20.: cannot accept text in brackets

31: prefer 31alt

34: support inclusion of "good governance", as proposed by ROK

### Goals and Targets:

Footnote - a reference to the GA resolution is sufficient (without bracketed text)

Can accept present proposal for revised targets as a compromise package.

### Follow-up:

75.: do not accept the reference to the indicators to be "adopted"

### Mol:

We believe the way out is to replace paras 58-67 with a new, streamlined and more generic paragraph, referring to all the seven action areas agreed upon in Addis. (We are working on a specific text proposal, which we will present later)
