

**Statement by**

**Dr. CHHUN Vannak, Head of Cambodia's Delegation**

**At the 2<sup>nd</sup> Inter-Sessional Meeting on Rio+20, New York, 16 December 2011**

**Thank you Mr. Co-Chair. I would like to congratulate you on being elected.**

**The form and structure of the Zero draft should be simple and concise; Regional Reports and Green Economy Roadmap are to be annexed; the zero draft should be organized in three parts:**

**For the introductory part, it recalls the Key Rio Principles, in particular Common but Differentiated Responsibilities; Recalls the UN General Assembly Resolution 64/234; Raise major gaps from the past implementation; Define a shared vision of sustainable development. Then, it highlights the objectives of the Rio+20: Renew political commitment.**

**Part on Green Economy in the Context of Sustainable Development and Poverty Eradication: Define Green Economy and its specific goals, and also identify tools and means for the implementation; address challenges of a transition to a green economy for developing countries and Less Developed countries, including financing, technology transfer and capacity building; incorporate low-carbon building measures.**

**Part on IFSD: should indicate a coherent institutional arrangement, cooperation and coordination among the UN institutions to deliver as one; The IFSD should have clear functions to integrate the three pillars of the sustainable development in a balanced approach, and be a guideline for the implementation of the green economy; for effective governance of one common institution, the IFSD is to include a multistakeholder engagement mechanism. Thank you very much, Mr. Co-Chair.**
