The Inter-Ministerial Working Group

26 Ministries and Government Agencies are working together with all relevant stakeholders to achieve the comprehensive integration of the 17 SDGs within the process of transforming Serbia towards sustainability

TOWARDS EQUALITY OF SUSTAINABLE OPPORTUNITIES
FOR EVERYONE AND EVERYWHERE IN SERBIA
THROUGH GROWING INTO SUSTAINABILITY

Content of the Voluntary National Review

- 🌍 The vision of a sustainable future, shared by children and youth, takes the central part of our report because children and youth of today will be the decision-makers in 2030
- 🌍 Our report included the needs, assessments, and recommendations of the Standing Conference of Towns and Municipalities

Highlights

Good Practice Example

Challenges

Areas of support

🌍 Gender-responsive budgeting

🌍 Achieving the guaranteed income

🌍 Increase in the scope of investments, knowledge and skills

🌍 Gender Equality Index

🌍 Ensure equal opportunities to all

🌍 Development of carbon-neutral circular economy and sustainable industry

🌍 Utilizing potentials of all generations

🌍 Transport, energy and communications infrastructure

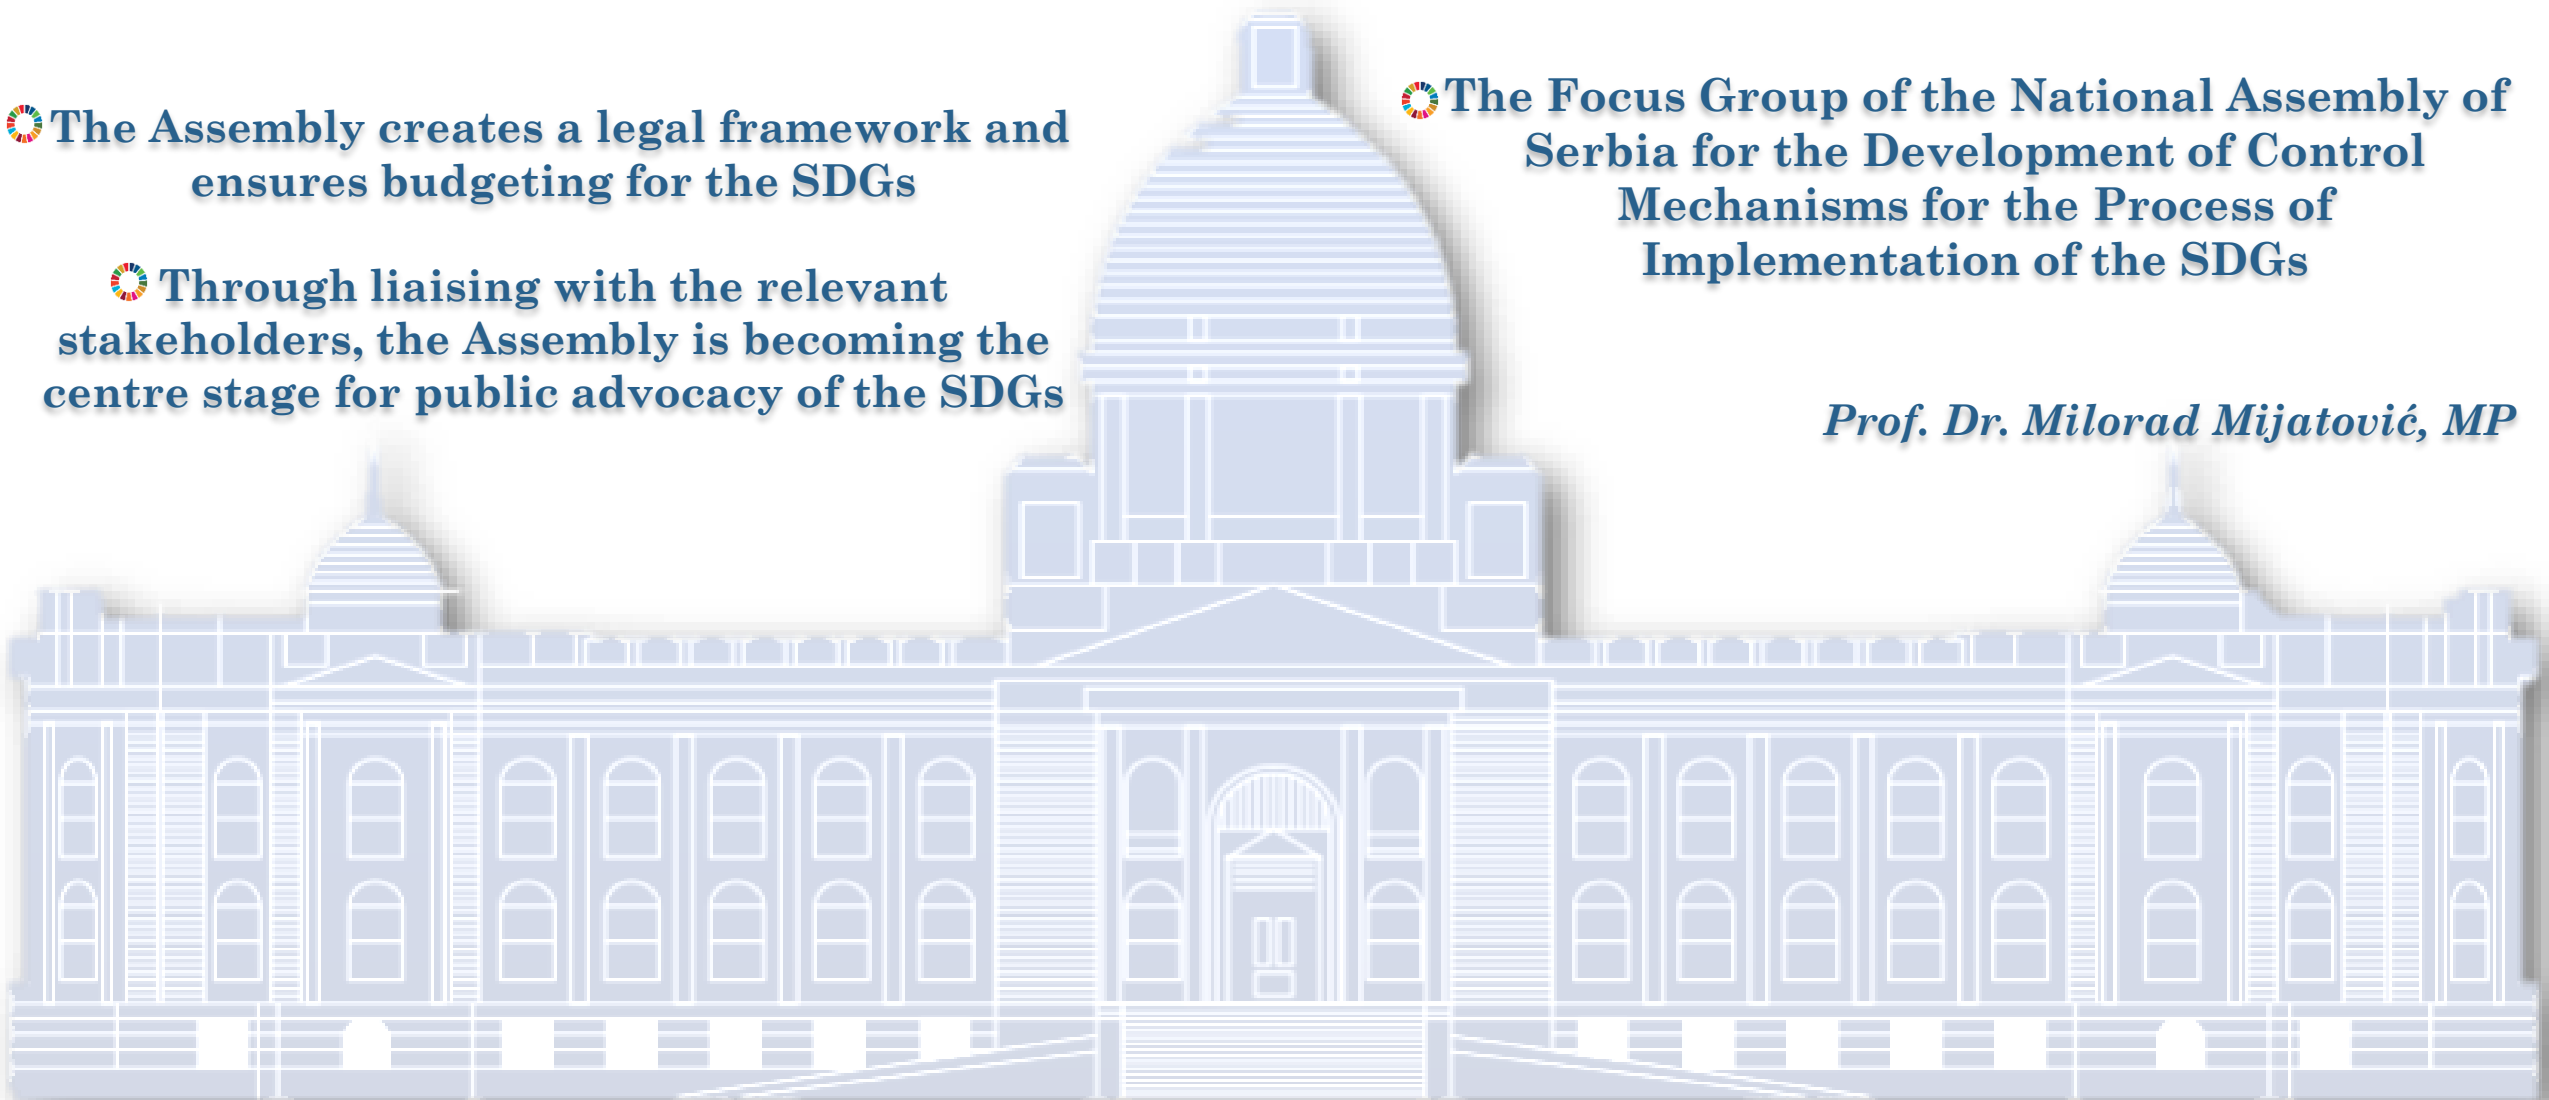

National Assembly of the Republic of Serbia

 **The Assembly creates a legal framework and ensures budgeting for the SDGs**

 **Through liaising with the relevant stakeholders, the Assembly is becoming the centre stage for public advocacy of the SDGs**

 **The Focus Group of the National Assembly of Serbia for the Development of Control Mechanisms for the Process of Implementation of the SDGs**

Prof. Dr. Milorad Mijatović, MP

Conclusion

🌍 Serbia's perspective of recognized challenges is now articulated through the prism of the Sustainable Development Goals

🌍 We believe that only by the joint efforts and collaboration among all stakeholders, its Government and its society as a whole, we can contribute to the sustainable development of Serbia – from here to sustainability

“There are only a few plants in the flora of Europe as interesting and mysterious as the Ramonda serbica. Ramonda serbica with its unusual ability to survive unfavorable conditions is, indeed, the “phoenix plant”. In addition to its full protection, human actions are needed to prevent and mitigate climate change to encourage the survival of the phoenix plant.”
