The objectives are promote: Sustainable Public Procurement; Sustainable Companies specially SME ; Technological Innovation and Sustainable Development ; Sustainable Lifestyles ; Tourism and Sustainable Building and Efficient Use of Natural Resources.

**Cooperation and Alliances between countries:** Promoting Integration of Sustainable Production and Consumption (Mexico – Chile – Germany) – sharing experience in the areas of sustainable public procurement and national strategies on SCP.

**Regional Integration for the Development of Sustainable Production and Consumption in the countries of the Pacific Alliance** (Mexico- Chile- Peru- Colombia- Germany): This cooperation is performed to promote regional integration of SCP and thus promote the development of mechanisms / instruments based on the experience of each country.

# Some Challenges

Secretariat

## How to accelerate the implementation of the 10-Year Framework of Programmes on SCP?

- **Communicating and demonstrating better the added value of SCP** and its potential contributions to competitiveness, social development, poverty eradication and climate change mitigation.
- **Ensuring that SCP is integrated in the decision making processes,** including by increasing technical and financial support to the governments in their efforts to mainstream SCP objectives into the design and implementation of a range of economic, development and sectoral policies, strategies and plans.

# Some Challenges

Secretariat

## How to accelerate the implementation of the 10-Year Framework of Programmes on SCP?

- **Empowering the 10YFP National Focal Points**, nominated by their respective governments, to enable them to define and convey countries' needs related to the shift to SCP,
- **Enhancing inter-ministerial cooperation and coordinate broader stakeholder action at the national level**, and serve as the channel for submitting proposals to the 10YFP Trust Fund;
- **Inducing more active participation of the private sector and financial institutions** in the 10YFP by demonstrating the economic case for, and return on investment generated by the shift to SCP patterns;
- **Securing predictable and adequate financial contributions to the 10YFP Trust Fund** to enable the timely implementation of its programmes at national and regional levels, on the scale being demanded by a wide range of actors.
