

Government Offices of Sweden

Innovative and Sustainable Ocean based Economy

6 June 09.00-10.30 Conference Room 6 in the UN Conference Building

Coffee, tea & light refreshments will be served outside the conference room from 08.30

Exploring innovative solutions, circular business- and platform models and successful partnerships is essential in making ocean based economy truly sustainable. We will address key challenges and possible solutions to these innovative partnerships and business models, something that is crucial when looking ahead.
