Side event

9 June 2017

Engaging the private sector in SDG14

– The Seafood Business for Ocean Stewardship (SeaBOS) initiative
Friday, 9 June, 2017, Conference Room 7, 1:15pm – 2:30pm

Stockholm Resilience Centre
Sustainability Science for Biosphere Stewardship

Stockholm University

GLOBAL ECONOMIC DYNAMICS AND THE BIOSPHERE
THE ROYAL SWEDISH ACADEMY OF SCIENCES

About the side event

This side event will present and discuss the efforts by companies in SeaBOS, a science-based sustainability initiative involving nine of the world's largest seafood companies

The event will illustrate how industry can actively engage to advance the SDG agenda, discuss how actions by policy-makers and business can complement each other, and serve to stimulate other ocean-related industry sectors to engage in a similar way for supporting the SDGs.

Furthermore, it will demonstrate how collaboration between science and industry can work in practice, and

present the developing action agenda within this partnership.

The discussion will primarily focus on how SeaBOS can contribute to SDG Targets 14.2 and 14.4.

The event is hosted by Stockholm Resilience Centre, an international research collaboration between Stockholm University and the Beijer Institute of Ecological Economics at the Royal Swedish Academy of Sciences.

Speakers

Knut Nesse
CEO Nutreco
Chairman SeaBOS

Darian McBain
Head of Sustainability,
Thai Union

**H.E. Ms.
Isabella Lövin**
Deputy Prime Minister of
Sweden and Swedish Minister
for International Development

Linnea Engström
Member of the
European Parliament

Johan Williams
Specialist Director,
Norwegian Ministry of Trade,
Industry and Fisheries

Henrik Österblom
Associate Professor, Deputy
Science Director,
Stockholm Resilience Centre

Moderator:
Meg Caldwell
Deputy Director,
The David and Lucile
Packard Foundation

Programme

Opening remarks

HRH Crown Princess Victoria of Sweden
Advocate for the UN Sustainable Development Goals

Introducing the SeaBOS initiative

The SeaBOS initiative

– from a scientific idea to a global partnership for change

Henrik Österblom, Associate Professor, Deputy Science Director, Stockholm Resilience Centre

Current status and direction of SeaBOS

Knut Nesse, CEO of Nutreco and Chairman of SeaBOS

How the SeaBOS initiative can stimulate global industry collaboration around SDG14

Dr Darian McBain, Head of Sustainability, Thai Union (video)

Reflections on science-business-government partnership for change: How can nation states develop partnership with the seafood industry

Johan Williams, Norwegian Ministry for Trade, Industry and Fisheries

How can global industry actors contribute to international policy development?

Linnea Engström, member of the European Parliament

Partnerships between business and governments to support implementation of SDG14

H.E. Ms. Isabella Lövin – Swedish Minister for International Development

Moderated by

Dr. Meg Caldwell, Deputy Director, The David and Lucile Packard Foundation

SeaBOS

Seafood Business for Ocean Stewardship (SeaBOS) is an initiative that, for the first time, connects the global seafood business to science, connects wild capture fisheries to aquaculture, and connects European and North American companies to Asian companies. The ambition is to lead a global transformation towards sustainable seafood production and a healthy ocean.
