

Tuesday, 10 July 3PM to 6PM, Conference Room 5

Title: What's needed to make capacity building for SDG 7 truly effective?

Instructors from IAEA: David Shropshire and Ilse Berdellans Escobar

Main Agenda Items:

- Principles of capacity building and role in achieving the SDGs;
- Formulation of energy policies within a changing society;
- Systematic problem formulation and identification of stakeholder roles;
- Importance of national country data collection and analysis;
- Problem solving using an integrated suite of analytical tools;
- Creation of regional and global capacity building networks;
- IAEA's SDG 7 capacity building programmes and experience.
