

## **SECOND MEETING OF THE STEERING COMMITTEE ON PARTNERSHIPS FOR SMALL ISLAND DEVELOPING STATES**

- **SIDS ONLINE PARTNERSHIPS PLATFORM**
- **REPORTING TEMPLATE**
- **STATUS OF REGISTRATION OF PARTNERSHIPS & UPDATES**

# SIDS ACTION PLATFORM

[www.sids2014.org](http://www.sids2014.org)

- Browse SIDS partnerships registered at SIDS Conference in 2014 – and since
- Still open for registration of SIDS partnerships
- SIDS partnership reporting template
- SAMOA Pathway Priority Areas
- SIDS Times Newsletter (second issue out in 2 weeks)
- SIDS Partnership Framework

The screenshot shows the SIDS Action Platform website. At the top, there is a blue header with the SIDS logo and the text 'SIDS ACTION PLATFORM'. To the right of the header is a green button that says 'REGISTER SIDS PARTNERSHIP' and several social media icons. Below the header is a large banner image of a tropical beach at sunset with a white box containing the text 'BROWSE SIDS PARTNERSHIPS'. The main content area is divided into four sections, each with a representative image and a text box:

- SIDS PARTNERSHIPS**: Image of a sunset over a body of water with a pier. Text: 'Around 300 partnerships were registered towards the SIDS Conference in 2014, addressing a range of priority areas. Click to browse.'
- SIDS PARTNERSHIP FRAMEWORK**: Image of a water droplet. Text: 'Monitoring and ensuring the full implementation of pledges and commitments through partnerships for Small Island Developing States'
- SIDS TIMES NEWSLETTER**: Image of a large conference room. Text: 'Now out: new newsletter on Small Island Developing States, March 2016'
- SIDS GLOBAL BUSINESS NETWORK**: Image of the SIDS logo. Text: 'The Small Island Developing States Global Business Network (SIDS-GBN) is an online platform and resource hub to share best practices and lessons learned.'

- COUNTRIES
- SDGs
- PROGRESS REPORT STATUS
- STATUS (ACTIVE, COMPLETED)

The screenshot displays the SIDS Action Platform interface. At the top, there is a navigation bar with the logo, the text "SIDS ACTION PLATFORM", a "REGISTER SIDS PARTNERSHIP" button, and icons for a grid, search, notifications, and user profile. Below the navigation bar is a large banner image of a tropical beach at sunset. Overlaid on the banner is a search box with the placeholder text "Name of partnership, description, partners" and a "SEARCH" button. Below the search box, a large counter displays "2 9 8 SIDS PARTNERSHIPS". Underneath the counter is a blue button labeled "CLICK TO SHOW/HIDE ADDITIONAL FILTERS". The main content area features two partnership cards. The first card is titled "21st Century learning and youth social entrepreneurship" and includes a description, a "PARTNERS" section listing "High Tech Youth Network & the Ministry of Women, Community and Social Development of the Government of Samoa", and a "PRIORITY AREAS" section with four circular icons. The second card is titled "A corporate programme of the GEF implemented by United Nations Development Programme (UNDP)" and includes a description and a "PRIORITY AREAS" section with seven circular icons.

# SAMOA PATHWAY PRIORITY AREAS

## SAMOA PATHWAY PRIORITY AREAS

					
Sustained and Sustainable, Inclusive and Equitable Economic Growth with Decent Work for All	Climate Change	Sustainable Energy	Disaster Risk Reduction	Oceans and Seas	Food Security and Nutrition
					
Water and Sanitation	Sustainable Transport	Sustainable Consumption and Production	Management of Chemicals and Waste, including Hazardous Waste	Health and NCDs	Gender Equality and Women's Empowerment
					
Social Development	Biodiversity	Invasive Alien Species	Means of Implementation, including Partnerships	SIDS Priorities for the post-2015 Development Agenda	Monitoring and Accountability

## Biodiversity

### OVERVIEW

Small Island Developing States (SIDS) have extraordinary marine and terrestrial biodiversity that in many cases is fundamental to their livelihoods and identity. However, their valuable biodiversity and the ecosystem services it provides are at grave risk due to environmental degradation.

The SAMOA Pathway seeks to promote international cooperation, partnerships and information exchange to support SIDS efforts to conserve biological diversity, the sustainable use of its components and equitable sharing of the benefits from the utilization of genetic resources; export organic, natural, sustainably produced and locally grown products; and access financial and technical resources for the conservation and sustainable management of biodiversity.

### A corporate programme of the GEF implemented by United Nations Development Programme (UNDP)

Reduced vulnerability and increased adaptive capacity of communities and disable persons to manage the additional risks of climate change. The partnerships will achieve its goals and objectives through the implementation of a portfolio of CBA projects in all participating SIDS countries. The sele...[more]

#### PARTNERS

Australian Government, Department of Foreign Affairs and Trade (DFAT), International Union of Nature Conservation (IUCN) through the Global Partnerships for Small Islands Developing States (GLIPSA), a...[more]

#### PRIORITY AREAS

### Addressing Connectivity for the Sustainable Development of SIDS

This project aims to achieve low cost, reliable, diverse satellite communications capacity for the socio-economic development of the Pacific Islands region utilizing un-used satellite capacity. To get the best return on investment, the same telecommunications/ICT infrastructure/resources will be use...[more]

# PARTNERSHIP REPORTING TEMPLATE & PROCESS

## TEMPLATE

AVAILABLE IN THE SIDS ACTION PLATFORM AS SHORT ONLINE FORM FOR EXISTING PARTNERSHIPS:

- Reporting year
- Status of the partnership
- Achievement at a glance
- Challenges faced in implementation (if any)
- Next steps
- Who are the beneficiaries and how did they benefit?
- Status on deliverables?
- New deliverables?
- Relevant documents

## PROCESS

- SUBMIT ONCE A YEAR UNTIL PARTNERSHIP ENDS
- REPORTS WILL INFORM STEERING COMMITTEE ON PROGRESS AND STATUS OF PARTNERSHIPS
- WILL BE USED BY SECRETARIAT TO PREPARE ANNUAL SG REPORT ON SIDS
- REPORTS REGULARLY FEATURED IN SIDS TIMES NEWSLETTER

**DETAILS OF INITIATIVE**

STATUS OF INITIATIVE: On track

SUPPORTING DOCUMENTS

- 10107SIDS Partnership Framework Reporting template - IOM.docx

**ACHIEVEMENT AT A GLANCE**

The project has advanced all three of its main components (research, capacity building, knowledge sharing) and produced the following deliverables in the selected SIDS: I. National Assessment Reports (reviews of existing evidence and policies on migration, environment and climate change); II. Household surveys and case study reports in migrant destination areas vulnerable to environmental change (finalized for PNG and Haiti; Dominican Republic in drafting stage; Mauritius survey to begin in June 2016); III. Training Manual on Migration Environment and Climate Change and Policymaker trainings; IV. National policy consultations.

**CHALLENGES FACED IN IMPLEMENTATION**

Country-specific social and political risks such as changes in the governments in the pilot countries and political uncertainty before/after elections have delayed the approval process for some activities. However, the gap in time has been used to front-load all necessary preparations so that activities can begin immediately once government approval is received. Violent clashes that have occurred between the community of IDPs from Manam Island and the local population in Madang Province in PNG have affected the feasibility of the household survey in that area. Only qualitative interviews were conducted with those who provided informed consent. Environmental risk factors such as monsoon/hurricane seasons in the pilot countries have been taken into consideration and appropriate months to conduct surveys have been discussed with the MECLEP focal points and a Technical Working Group, in order to avoid risks of halting or delaying survey implementation.

**NEXT STEPS**

The immediate next steps will primarily entail collating and finalizing the findings from research undertaken in the remaining pilot countries, notably to: -Finalize the case study report from the Dominican Republic and develop the report on Mauritius. - Continue developing Policy Briefs useful for all SIDS. -increase outreach and communication channels and enhance the Environmental Migration Portal content. - Develop a final comparative report covering all countries included in the project.

**MEASURABLE OUTCOMES**

**BENEFICIARIES**

The MECLEP project has been carried out in six countries, of which 4 are SIDS.

**ACTIONS**

Local populations affected by environmental change: empirical evidence will contribute to accurate policy advice. A better understanding of the environmental migration causes, processes and consequences will contribute to higher livelihoods quality. Broader policy and research community interested in the implications of environmental change on migration: will have access to up to date information, comparative analysis, policy briefs and literature review summaries. National/local government officials and civil society organizations: the outputs of the project will allow governments to implement environmental migration policies based on empirical knowledge, guaranteeing a greater success and potentially greater acceptance of the policies amongst local populations. Research institutes working on issues of migration and/or environment: new research networks, tools, methodologies and findings are available, research gaps have been found and need further development.

**DELIVERABLES**

Year	Deliverables	Status
2014	Six national assessment reports	Delivered
2015	Training Manual on Migration Environment and Climate Change and policy trainings in six partner countries	Delivered
2016	Household surveys and six case study reports, and one final comparative report	Delivered
2016	National policy consultations in six partner countries	Delivered
