Partnerships for Small Island Developing States

March 2019

Information sources for the analysis

- **SIDS Action Platform**
 - Samoa Pathway partnerships
 - 2017 UN Ocean Conference partnerships for SIDS
- **Information received from regional organizations:**
 - Regional SAMOA Pathway reports for mid-term review
 - Pacific Islands Forum Secretariat (PIFS)
 - Economic Commission for Latin America and the Caribbean (ECLAC)
- **Information from partnership dialogues**
 - Organized since 2015, with regional and inter-regional dialogues in 2018: a total of 104 partnerships featured
- **Information from an analysis of SIDS Human Development index** undertaken by UNDP
- **Other relevant information:** reports, websites, etc.

The numbers

SIDS Regions	2014 partnerships	Current Partnerships	Completed	Active
Global	113	147	30	117
AIMS	20	82	25	57
Caribbean	42	178	37	141
Pacific	134	287	64	223

- **Increase in total number of active partnerships** in all regions
- **Numbers indicative rather than absolute** – likely underestimate
- **A large number of completed partnerships**

Participation

- **Main entities leading partnerships:** Governments, regional organizations and UN organizations
 - **Global:** UN agencies
 - **Caribbean and Pacific:** Regional agencies, governments
 - **AIS:** governments
- **IGOs, NGOs and civil society participate,** lead minority of partnerships. Highest in Pacific
- **Participation by the private sector and by academia was generally lower** than that of NGOs and civil society

Addressing Samoa Pathway priority areas

- **All Samoa Pathway priority areas addressed, but unevenly**
- **In most regions, oceans and seas, climate change well addressed**
- **Also many partnerships on sustainable economic growth, sustainable and renewable energy and disaster risk reduction**
 - **For example, Centres for Energy efficiency and Renewable Energy: Caribbean (CCREEE), Pacific (PCREEE), and Western Africa (ECPWAS)**
 - **More than 2.75 GW of total renewable energy installed capacity in SIDS (SIDS Lighthouses Initiative)**
- **Many partnerships had tangible on-the-ground impacts, furthering implementation of SAMOA Pathway**

Under-represented areas

- **Aspects of social and economic development, in particular addressing inequality** - income inequality, marginalized groups, youth employment
- **Multiple dimensions of poverty:** Sustained investments in human capital, such as education and health, and food and nutrition security
- **Sustainable transportation:** low-carbon, low cost options for communities on remote islands
- **Water, wastewater and sanitation**
- **Health and NCDs** - assisting countries with their NCD-related activities
- **Gender considerations** - income equality, women's participation in the workforce, and women's leadership
- **Integrated ecosystem management focusing on whole islands** - terrestrial connections to watershed and the sea; livelihoods
- **Sourcing development finance for SIDS** – Innovative financing.

Impacts

- **Direct impacts on beneficiaries** (*e.g. increased resilience of communities, customers enrolled in financial services, improved access to safe water and sanitation for communities*)
- **Direct impacts on the environment** (*e.g. protection of marine and terrestrial environments*)
- **Knowledge, information, data and indicators** (*e.g. platforms for disaster management, nutrient management and water and sanitation; knowledge sharing between drought-affected SIDS*)
- **Improved coordination between agencies and organizations**, *leading to a more effective and comprehensive delivery of programs and outcomes*
- **Improved capacity** (*e.g. training programs on topics ranging from disaster resilience to wastewater management, cultural heritage and comprehensive sexual education; delivery of university programs and virtual education*)
- **Positive policy environment** (*e.g. training parliamentarians on gender issues and empowerment of women, strengthening youth engagement in policy, and developing an agreed-upon comprehensive sustainability vision*)

SIDS Partnership case studies

- Conducted through interviews with focal points
- **Collectively seek to understand:**
 - What is a genuine and durable partnership? What elements do they have?
 - Real examples of how partnerships have solved problems and innovated
 - How they have addressed SMART criteria
- **Case studies have already provided insights about how partnerships operate** – these insights helping develop learning materials (Partnership Toolbox)

Good practices

- **Successful partnerships depend on ownership, mutual trust, respect, transparency and accountability**
- **Good practices include:**
 - **Both good governance and flexibility are important in partnership** – different organizational structures can serve different purposes
 - **Support from ‘Champions’ and ‘Unusual Suspects’** can be of great help
 - **Inclusivity and ownership** are demonstrated through high stakeholder participation and shared commitments and benefits
 - **Capacity building within partnership is important** - every partner’s voice should be heard

In summary

- **Substantial achievements by existing partnerships**
- **Lessons learned & good practices**
- **Moving towards the next generation of sustainable and genuine partnerships**
- **Large number of completed partnerships**
 - Opportunity for new generation of partnerships to address under-represented areas
 - Learning from completed partnerships
 - Scaling up successful partnerships
- **Strengthening existing partnerships**
 - SIDS Partnership Norms and Criteria
 - Better understanding what makes a genuine and durable partnership – capacity
