14. Help Make the HLPF 2019 Carbon-Neutral!

Did you know that...

- ... that 98% of carbon emissions at HLPF 2019 will be from air travel.
- ... that over 3.5 million kilograms of carbon will be emitted at HLPF from air travel alone. This is equivalent to 13,805,650 kilometers driven by an average passenger vehicle or the consumption of 8,103 barrels of oil.
- ... that each participant at HLPF will emit on average 1,246 kilograms of carbon from our air travel to HLPF? This is equivalent to 33 tree seedlings grown for 10 years in the USA.
- ...if each participant flying in at HLPF would donate \$5 to a certified carbon-offsetting project, we could make all air travel to the HLPF carbon-neutral.

Make your participation in the HLPF carbon-neutral!! Select the project you want to support by [clicking here](#) or contact ClimateNeutralNow@unfccc.int for more information.
