WHAT DO THE SDGs TELL US ABOUT THE DETERMINANTS OF HEALTH AND THEIR POLICY IMPLICATIONS?

- Examples of institutions and policies outside the health sector that support improved health outcomes
- How could institutions with a strong influence on health outcome be incentivised
- Institutional arrangements needed to resolve trade-offs

Saroj Jayasinghe University of Colombo Sri Lanka

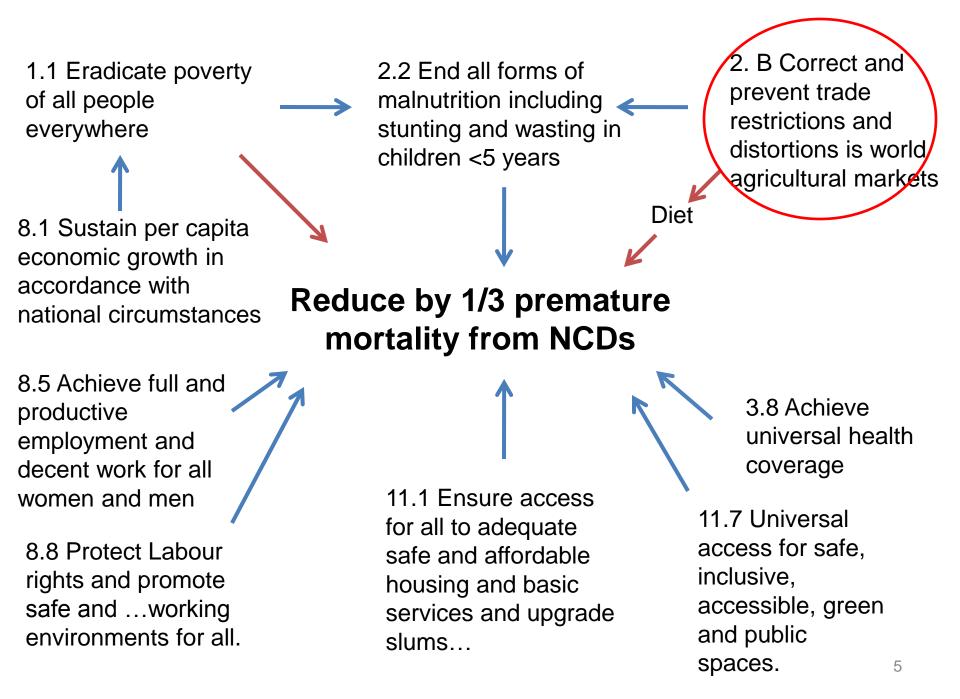

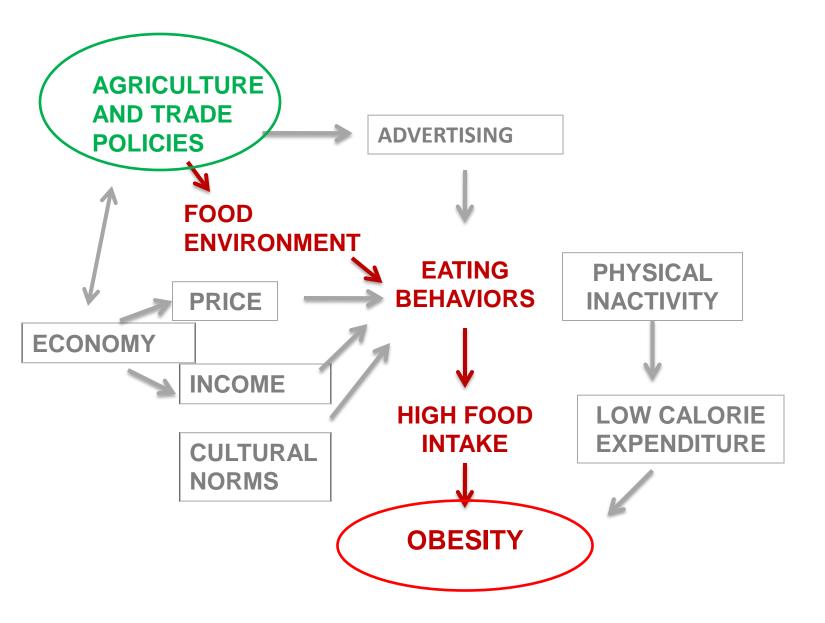

A systems approach towards achieving SDGs is desirable (based on ICSU)

INSTITUTIONAL ARRANGEMENTS

Adelaide Statement on Health in All Policies

moving towards a shared governance for health and well-being

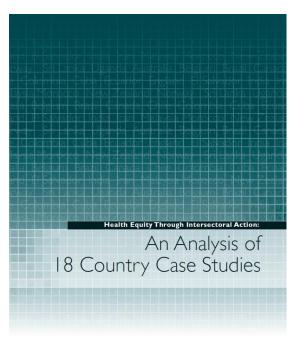

Report from the International Meeting on Health in All Policies, Adelaide 2010 Taking account of health means more effective government

> More effective government means improved health

Intersectoral planning for health and health equity

Erik Blas Nathalie Roebbel Dheepa Rajan Nicole Valentine

Public Health Agence de la santé Agency of Canada publique du Canada

Tools and instruments that have shown to be useful at different stages of the policy cycle

- Inter-ministerial and inter-departmental committees
- Cross-sector action teams
- Partnership platforms
- Integrated budgets and accounting
- Health Lens Analysis
- Cross-cutting information and evaluation systems
- Health impact assessments
- Joined-up workforce development
- Community consultations and Citizens' Juries
- Legislative frameworks
- HiAP Adelaide Statement 2010

HOW CAN OTHER SECTORS BE INCENTIVISED

- Inter-sectoral budgets
- Accounting mechanisms (a proportion for integrated projects or programmes)
- Debt relief linked to integrated projects and programmes

SUMMARY

- Health outcomes inextricably linked to other SDGs and social determinants (WHO)
- A systems approach towards achieving SDGs is desirable (ICSU)
- We need to recognize less well articulated determinants (e.g. trade and war)
- Institutional arrangements and incentivising other sectors: Inter-sectoral planning and implementation, Health in All Policies (WHO)

SOCIAL DETERMINANTS OF HEALTH
