Approach

The Partnership aims to:
- ensure that voices of the most marginalised are heard; so that governments deliver on the promise
- catalyse sustained action, commitment and responsibility that is needed from the global community (including governments, private sector, civil society, UN, international organisations and citizens) to implement the Global Goals so that no one is left behind.

To help secure a long-term broader partnership to turn it into a reality.

There are three principles at the core:

- EXAMINE
- ENGAGE
- EMPOWER
Achievements to date
