

Farmers Major Group  
Delivered by Mr Luis Miguel Etchevehere  
WFO Board member, Latin America

- ✓ The agricultural sector creates development, eradicating poverty and promoting prosperity worldwide.
- ✓ Effective partnerships and policies are the milestones of an efficient and sustainable agricultural sector.
- ✓ Farmers are largely supporting the implementation of the 2030 Agenda, in particular SDGs 1, 2, 5, 8, 13 and 17.
- ✓ The interlinkages of SDGs allow us to work on several goals and targets simultaneously, hence we must all work together to implement the 2030 Agenda.
- ✓ Sustainable agriculture is key to global food security and to foster prosperity in rural areas. Farmers stand ready to closely cooperate with Governments for a successful implementation of the SDGs.
