- Concerted vision of future to 2030
Strategic planning cycle for continuous improvement

1. It seeks to understand how people live in their territories, their livelihoods and their level of well-being.

2. The people’s aspirations are identified, an analysis of the future is carried out and the image of the desired territory is defined.

3. Public policies are defined to achieve the image of the desired territory, through prioritised and guidelines.

4. It collects and analyzes information on the indicators defined in the plans to verify the progress towards achieving the image of the desired territory.
