A series of courses and workshops, co-organized by UN DESA and UNITAR, featuring speakers and experts from academia, national governments and other sectors on crucial topics related to the implementation of the SDGs.

Hosted by UN-Water, the SDG6 Global Acceleration Framework launch is a high-level and multi-stakeholder moment to generate commitments for ambitious solutions on water and sanitation in support of the Decade of Action to deliver SDGs by 2030, by strengthening country planning, implementation and knowledge sharing for SDG 6 while supporting country response to the COVID-19 pandemic.

Jointly convened by WBCSD and UN DESA, the event will bring together business leaders and sustainability champions from across the world for an engaging virtual dialogue to explore the lessons learned, highlight transformative solutions and build collaborative synergies around the new normal we want.

A global conversation on how higher education institutions can support a green recovery from COVID-19, co-organized by UN DESA, UNESCO, UNEP, UNGC’s PRME, UNU, UN-HABITAT, UNCTAD and UNITAR.

The 3rd Local and Regional Governments Forum on the 2030 Agenda will bring together mayors, governors, national governments and all relevant stakeholders to highlight the crucial role of local action in achieving global commitments and to share solutions and good practices in building back better in the recovery from COVID-19.

Jointly organized by the United Nations Volunteers programme and the International Federation of Red Cross and Red Crescent Societies, the global technical meeting will aim at advancing the discussions and debates on volunteering for the 2030 Agenda and jointly shaping the future of volunteering. The outcome of the meeting will be a global call to action on next generation volunteering to deliver the 2030 Agenda.
