- We develop new rules, standards and recommended practices
- We qualify new technologies and operational concepts
- We give expert advice to enhance sustainable business performance
- We use digital platforms to deliver
Some points for consideration

Based on our experience in delivering knowledge management projects and associated platforms

- A shared purpose and vision
- This is not only about an IT platform, but also about creation of a network
- Focus the efforts on a selected few areas, and build from there
- Soft + hard = smart
- Open data approaches and technologies
- Evolutionary approach, but with an agreed architecture
- Stamina
- Time and effort, not only for IT
- Focus on users, users, users
