Convention on Climate Change

TT: CLEAR

Asher Lessels. UNFCCC.

Three trends...

Internet usage in 2020 will be truly global (Microsoft)

By 2020, 4-5 billion people will be online, almost 4 billion using smartphones (experiancerethink.com)

LATEST ANNUAL AVERAGE: 2016

0.99 °C

Greenhouse gas emissions continue to rise (NASA)

Policies

TEC recommendations for climate tech action

Each year, the Technology Executive Committee develops key messages and recommendations on climate technology policies.

These may support policy-makers as they create national climate action policies and strategies. They have been brought together and may be found by clicking on the following icons.

2016

climate technology financing

The TEC encourages the Global Environment Facility (GEF) and the CTC to enhance their collaboration with respect to exploring new ways of supporting climate technology related requests for technical assistance, including through the strengthening of collaboration between GEF focal points and CTCN NDEs.

2016

climate technology financing

The TEC welcomes the increased engagement between the Green Climate Fund (GCF) and the Climate Technology Centre (CTC), particularly with respect to exploring ways of utilizing the Readiness Programme and the Project Preparation Facility to respond to country-driven requests for technical assistance, and encourages the advancement of this linkage, including through the strengthening of collaboration between GCF national designated authorities and Climate Technology Centre and Network (CTCN) national designated entities.

What are the lessons learned from the establishment of TT:CLEAR?

- Be conservative about project scope and avoid scope creep
- Be conservative with timeline required
- Ensure that a project manager can oversee project on a day-to-day basis

Based on these lessons, how can one minimize risks and maximize opportunities in the operationalization of the TFM's Online Platform?

- Base it on concrete needs... in addition to the mandate
- Manage expectations
- Identify project champion

How can TT:CLEAR directly contribute to the operationalization of the Online Platform?

- Connect to the Technology Mechanism
- Technology needs and action plans
- Technology policies
