

Sustainable Consumption and Production

– Interlinkages between SDG 12 and other Goals

SDG Interlinkages and Common Themes at HLPF 2018
Expert Group Meeting,
UNHQ, New York, 25-26 January 2018

10YFP: implementation mechanism for SDG 12

“Ensure Sustainable Consumption and Production Patterns”

12.1

Implement the 10-year framework of programmes on sustainable consumption and production, all countries taking action, with developed countries taking the lead, taking into account the development and capabilities of developing countries

31 targets

within the 6 goals up for review at HLPF 2018 are **contingent upon SCP**

SCP focused partnerships, such as those in the six 10YFP programmes, can support their effective implementation

There are important SCP related targets in other goals, notably 2, 3, 4, 8, 9 and 14

10YFP as an implementation mechanism of SDG 12 (and linked SDGs)

- 17.9 Capacity building
- 17.16 Multi-stakeholder partnerships
- 17.17 Public, public-private and civil society partnerships
- 17.19 Building on existing initiatives

SDG targets requiring SCP action and policies

14 key targets linked to outcomes and impacts from the shift to SCP*

Resource efficiency:

6.4 Water-use efficiency

7.2 Energy efficiency
7.3 Renewable energy

11.B Resource efficiency for disaster risk management

12.2 Natural resource management
12.7 Sustainable public procurement

Environmental impact:

6.3 Water quality

7.3 Renewable energy

11.6 Environmental impact of cities

12.3 Global food waste
12.5 Waste 3Rs

15.1 Sustainable use of ecosystems
15.3 Restoration of degraded land
15.9 Ecosystems and biodiversity in planning

Human well-being:

6.3 Water quality
6.4 Water-use efficiency

7.3 Renewable energy

11.6 Environmental impact of cities

12.5 Waste 3Rs
12.B Sustainable tourism

15.3 Restoration of degraded land

SCP National Action Plans

- Resource efficiency measures
 - Water use efficiency
 - Energy use efficiency
 - Waste prevention, reduction, recycling and reuse
 - Resource management
- Mitigating impacts on the environment and human well-being
 - Pollution
 - Biodiversity
- Interlinkages with SCP could also be relevant also to...
 - City planning
 - CSR strategies
 - Sustainable public procurement policies

SCP National Action Plans are cross-sectoral, emphasize resource efficiency and enhance coherence and inter-ministerial cooperation

SCP National Action Plans also engage the private sector and consumers, are an indicator for SDG target 12.1, and exist in around 35 countries

Sustainable Food Systems

- Resource efficiency measures
 - Water use efficiency
 - Resource management
 - Reduce food waste
- Mitigating impacts on the environment and human well-being
 - Pollution
 - Food waste
 - Biodiversity
 - Land degradation
 - Sustainable agricultural practices

10YFP sustainable food systems programme has >150 partners and underpins targets in goal 2 on sustainable food production and enhancing productivity

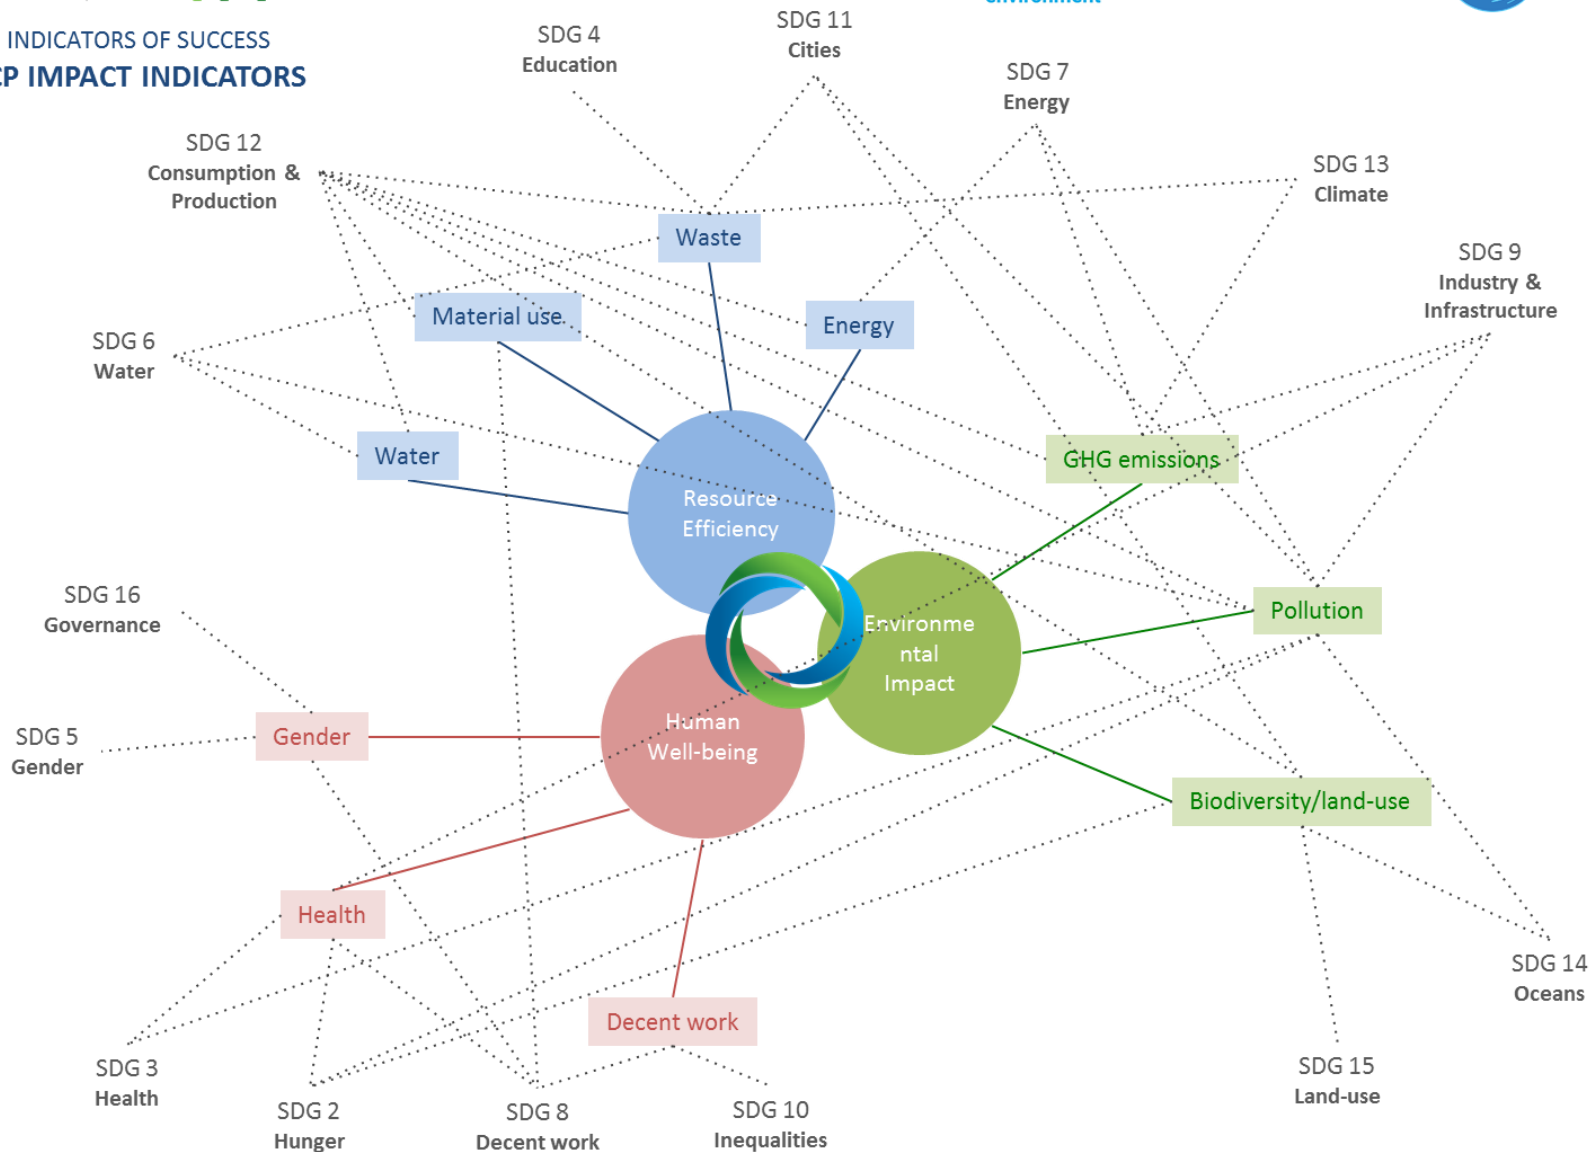

Policies, practices and choices incorporated in such systems conserve critical resources and contribute to food security and human welfare

10YFP Indicators of Success: Demonstrating the shift to SCP *Sustainable Development Goals*

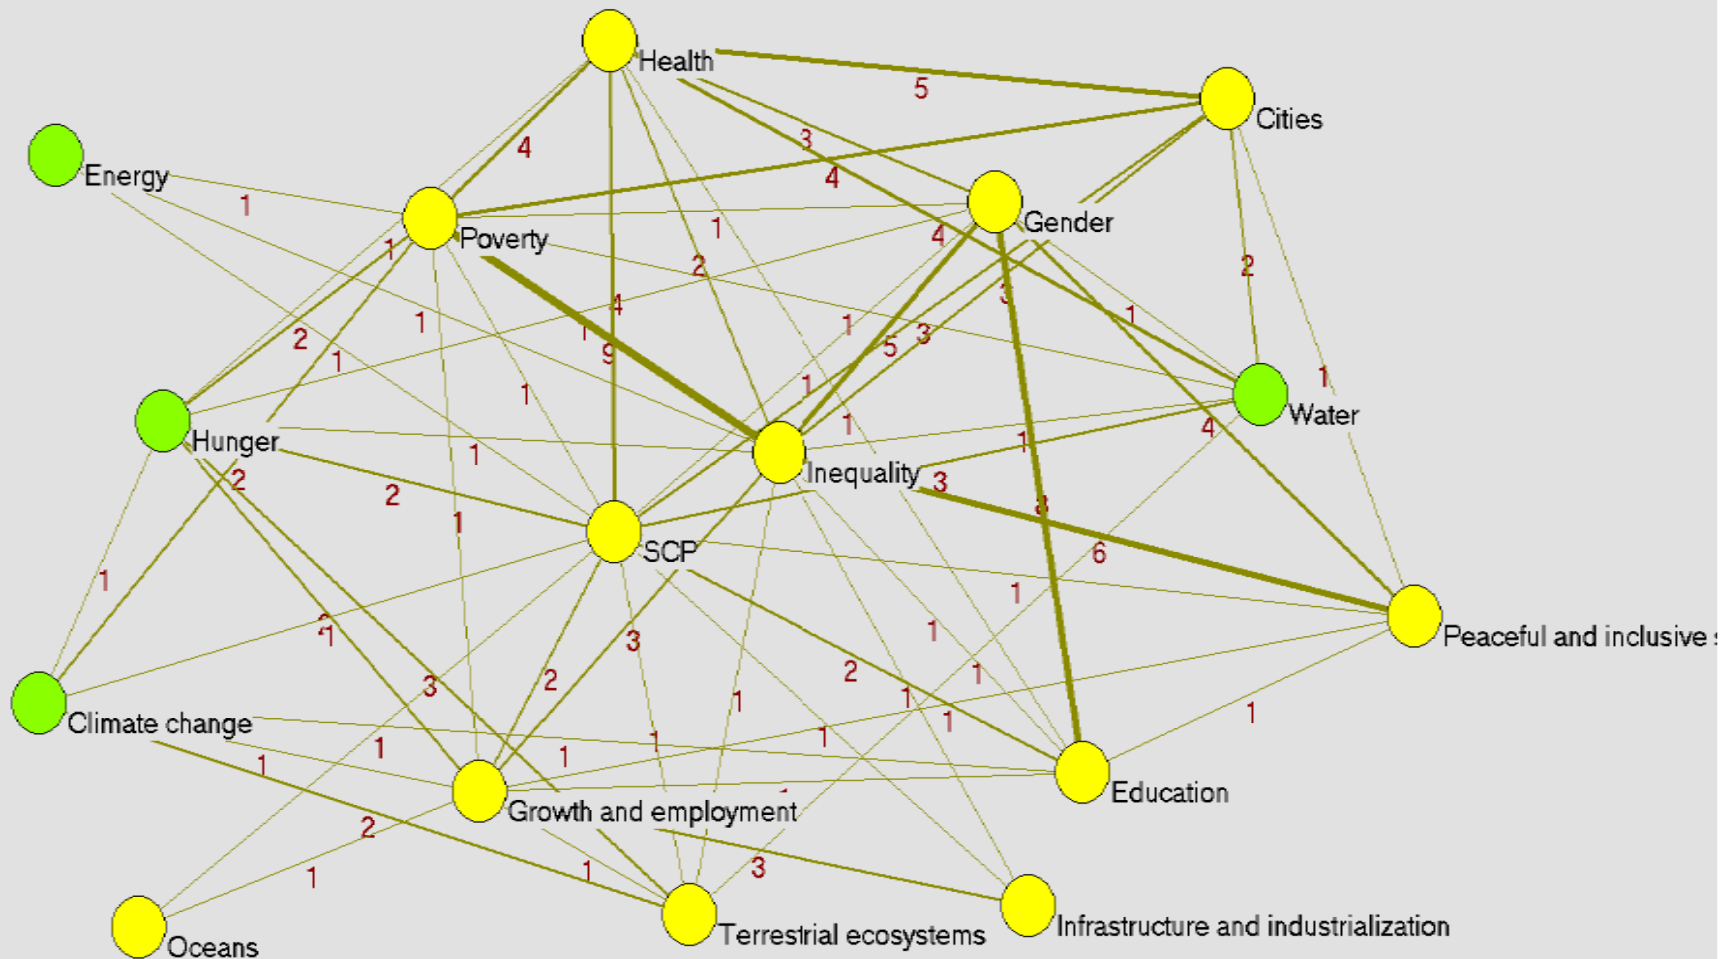

INDICATORS OF SUCCESS SCP IMPACT INDICATORS

The SDGs as a network of targets
