Leaving no one behind

- Early action is key
- Ambitious policies lead to rapid results
- Targeted investments to accelerate overall progress
- Disaggregated data for tracking progress
- More finance is needed

Building resilience

- Instability as rule rather than exception
- Greater coherence across global agendas
- Across social, economic and environmental dimensions
- Focus on assets and capacities

Toward sustainability

- Centrality of transformation and urgency of action
- Whole of government approaches
- Rethinking the global partnership

We are determined to take bold and transformative steps... to shift the world to a sustainable and resilient path. As we embark on this collective journey, we pledge that no one will be left behind.

Preamble, The 2030 Agenda for Sustainable Development
