The 2030 Agenda for Sustainable Development clearly states that the SDGs are **universal, indivisible, integrated and people-centered** (in preamble & paras. 5, 18, 55, 71)

The 2030 Agenda affirms the Human Right to Water & Sanitation by aspiring for all:

“A world where we reaffirm our commitments regarding the human right to safe drinking water and sanitation and where there is improved hygiene; and where food is sufficient, safe, affordable and nutritious. A world where human habitats are safe, resilient and sustainable and where there is universal access to affordable, reliable and sustainable energy”.
All 17 SDGs are Water-related
All 17 SDGs are Gender-related
SDG 6: Goal & Targets

Ensure availability & sustainable management of water & sanitation for all

6.1 by 2030, achieve universal and equitable access to safe and affordable drinking water for all

6.2 by 2030, achieve access to adequate and equitable sanitation and hygiene for all, and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations

6.3 by 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater, and increasing recycling and safe reuse by x% globally

6.4 by 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity, and substantially reduce the number of people suffering from water scarcity

6.5 by 2030 implement integrated water resources management at all levels, including through transboundary cooperation as appropriate

6.6 by 2020 protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes

6.A by 2030, expand international cooperation and capacity-building support to developing countries in water and sanitation related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies

6.B support and strengthen the participation of local communities for improving water and sanitation management
Water-Women-Security Nexus within the SDGs

UNGA Resolution 71/222 proclaims the period 2018 to 2028 the International Decade for Action, “Water for Sustainable Development” to further improve cooperation, partnership and capacity development in response to the ambitious 2030 Agenda.

Objectives of the Decade are to:

• **Advance sustainable development & IWRM** for achievement of social, economic and environmental objectives;

• **Energize implementation** and promotion of programmes and projects; and

• **Mobilize action**, cooperation and partnerships at all levels to achieve internationally agreed water-related goals and targets, including those in the 2030 Agenda for Sustainable Development.

**UN-Water** Task Force prepared UN Secretary-General **Action Plan for Water Action Decade.**

➢ ESCWA serves as a member of the Task Force and will be collaborating with national, regional and global partners to advance the objectives of the Water Action Decade
