listed
MPAs

MPA Effectiveness (MEAT)

Data Accuracy and Representativeness

Valuable Data at Scale

Accurate and representative data provides the means to

Local/Site Level

Enhance the likelihood of generating the desired outputs through science-based **management** and greatly enhanced **site selection** along with **reduced conflict**

Created by Gan Khoo Lay
from Noun Project

National/Global Level

Develop **stakeholder confidence** in conservation measures through a focus on **effectiveness and then scale**; with **core representativeness** that can provide information on broad interests at the global scale

Created by Ainsley Wagoner
from Noun Project

**Marine
