LOW-EMISSIONS SOLUTIONS IN ENERGY AND BEYOND: PARTNERING WITH BUSINESSES FOR A SUSTAINABLE RECOVERY

To achieve the SDGs and the goals of the Paris Agreement, we need to employ and scale up all available technologies that contribute to low-emissions development without discrimination.

How can we do that?

- **Promoting** low-emissions solutions in energy for the Paris Agreement
- **Sharing** experiences and practices in scaling low-emissions tech
- **Delivering** jobs creation and upskilling
- **Engaging** in partnerships between the public and private sectors
- **Working** with relevant stakeholders and local communities
