

Thanks Cheryl, my appreciation.

Dear Colette,

Receive my regards in order to submit the corresponding talking points from MIDIS Peru:

i) The **territorialization of the Social Protection** in the frame of the National Policy of Development and Social Inclusion considering the effective response to Covid-19 and the initiatives of Food Security.

ii) The transversalization of the multidimensional poverty measurement in the National Policy of Development and Social Inclusion.

iii) The importance of the strategic alliances with the private sector, the Academy and the civil society.

Finally, we will proceed with the delegate registration according to the guidelines submitted however, i would like to re-confirm if there will be a specific link for the panelists as Minister Vargas.

Thanks for your attention.

Best regards,

Kathe.
