LOW-EMISSIONS SOLUTIONS IN ENERGY AND BEYOND: PARTNERING WITH BUSINESSES FOR A SUSTAINABLE RECOVERY

In 2021, all eyes are on the climate agenda as the world gears up for COP26 in Glasgow in the hope to accelerate the implementation of the Paris Agreement. Delivering on this ambitious global commitment will require developing, promoting and scaling all available low-emissions technologies and solutions without discrimination, including sustainable nuclear and hydropower while seeking balance between SDG 13 and SDG 7. However, to make this work, we will need better understanding and partnerships between public and private sectors, working with relevant stakeholders and local communities to communicate clear benefits and tradeoffs. This session will bring stakeholders together to find new ways to make sure that economies use all available tools to manage long-term emissions.

Topics for discussion:

- How can all low-emissions solutions be used to achieve the goals of the Paris Agreement, while maintaining the nationally-determined nature of contributions?
- What experiences and practices can be shared to facilitate the scaling of low-emissions solutions in economies that need them the most?
- How can transformations aimed at managing emissions foster sustainable growth and deliver jobs creation and upskilling?
- How can governments and businesses partner in low-emissions tech for a sustainable recovery?

Keynote address:

- **Maxim Reshetnikov**, Minister of Economic Development, Russia

Moderator:

- **Andrey Bayda**, Vice President, VEB.RF, Russia

Speakers:

- **Mikhail Chudakov**, the Deputy Director General and Head of the Department of Nuclear Energy, IAEA
- **Kirill Komarov**, First Deputy Director General for Corporate Development and International Business, ROSATOM
- **Dai Bing**, Ambassador, Charge d'Affaires and the DPR of Chinese Mission to the UN, China
- **Kimura Tetsuya**, Ambassador, Economic, Social and United Nations Management Affairs, Japan
- **Barbara Woodward**, Ambassador and Permanent Representative, UK Mission to the UN New York
- **Plinio Nastari**, president of the Brazilian Institute of Bioenergy and Bioeconomy, Brazil
- **Philippe Joubert**, Senior Adviser, World Energy Council & Former President of Alstom Power
- **Mark Barnaba**, Deputy Chairman, Fortescue Metals Group

**RSVP: Ms. Victoria Kardash,
Russian Mission to the UN**
