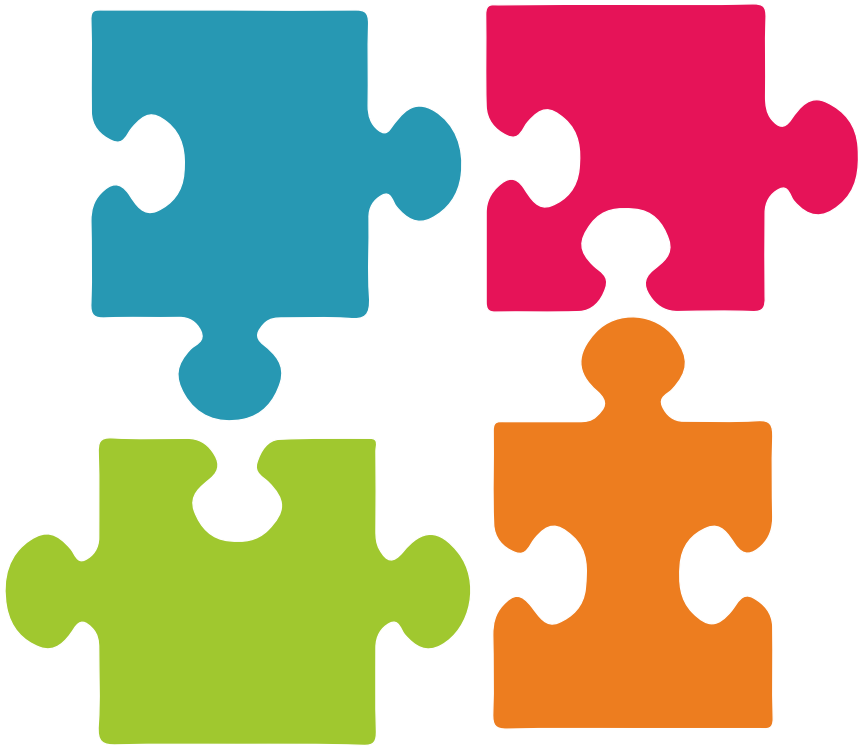
CHALLENGES

unite
Office of Information and Communications Technology

Unreliable sources (Ex: Search Engines)

Information overload

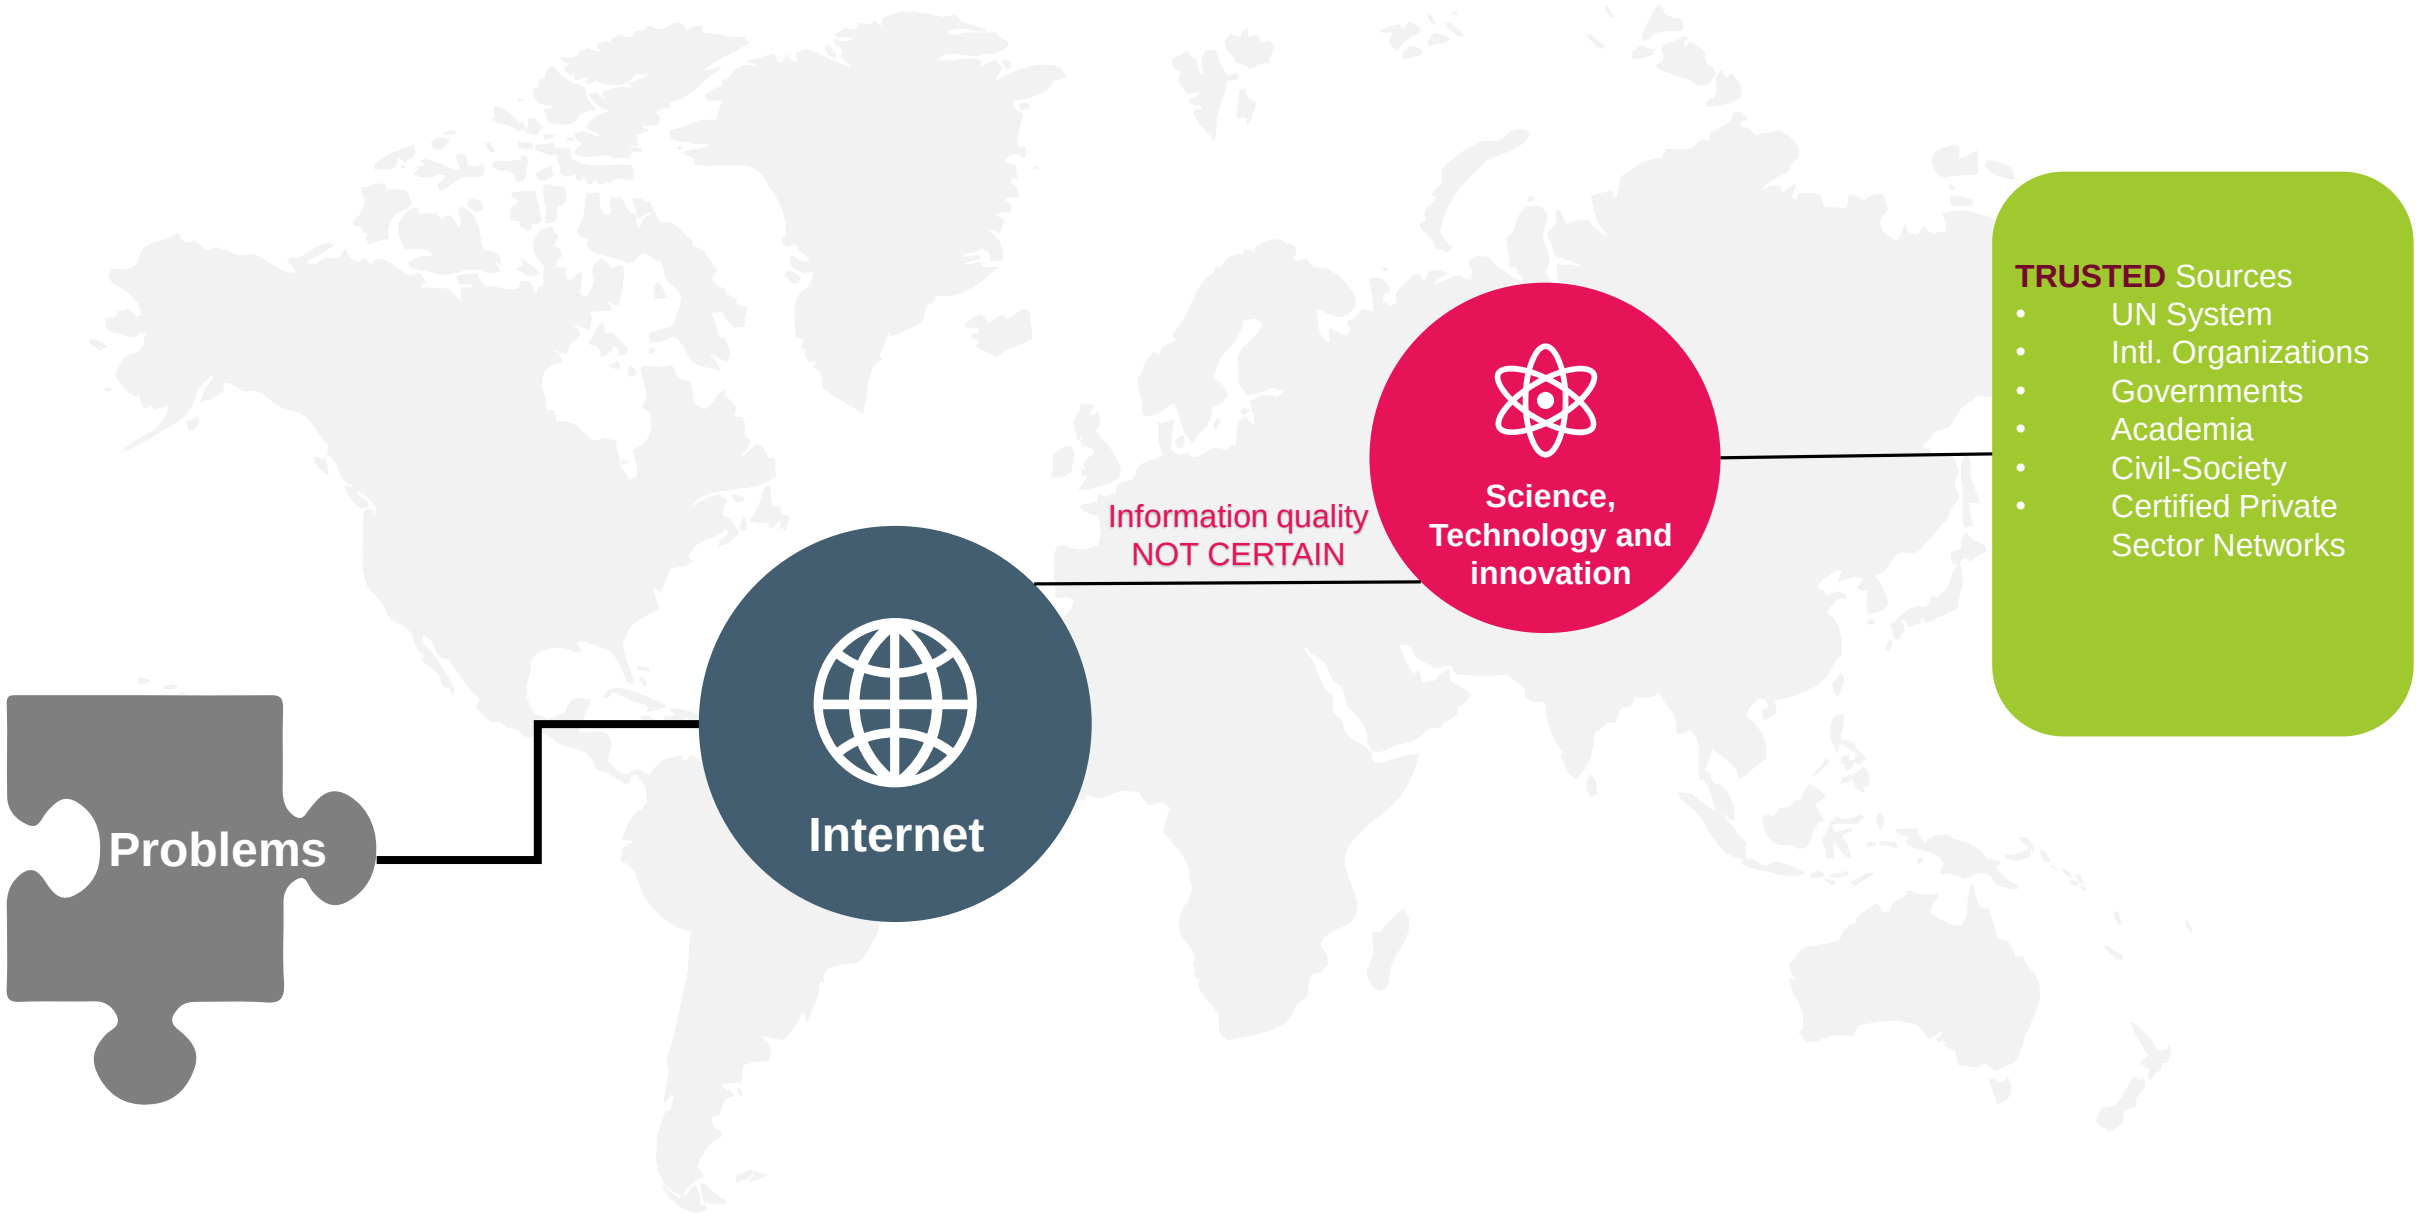
Delays in implementations, lost opportunities, economic loss due unclear and misleading information



Confusions in Decision Making due to various data sources

Keeping up with the latest technological advancements

Access issues - Who, What, When, Where, Why and How?



Problems
Internet
Information quality
NOT CERTAIN
Science, Technology and innovation
TRUSTED Sources
• UN System
• Intl. Organizations
• Governments
• Academia
• Civil-Society
• Certified Private Sector Networks

UNITED NATIONS

unite
Office of Information and Communications Technology

OUR SOLUTION

01

One stop centralized platform to access information and services related to technology implementation of SDG

02

Consolidation of curated contents, contacts, and technological support

03

A simple but clear way to search, find and access information otherwise decentralized

04

A virtual eco-system that connects access to credit, legal and training

05

A solution that updates information seamlessly and regularly from multiple trusted and reliable sources

06

Subject matter experts to assist you with various SDGs through one single gateway
