

SUSTAINABLE
ENERGY FOR ALL

SUSTAINABLE ENERGY FOR ALL

Susan McDade

Addis Ababa, 4 Dec 2013

Why Energy?

“Energy is the golden thread that connects economic growth, increased social equity and an environment that allows the world to thrive.”

-- UN Secretary-General Ban Ki-moon

“Ending poverty and ensuring sustainability are the defining challenges of our time. Energy is central to both.”

-- Jim Yong Kim - World Bank Group President

Why are we here today and why do we need SE4All?

The world faces three great energy challenges in the coming decades.

1. First, ending energy poverty. Ensure that every person has access to electricity and modern energy sources for cooking and heating.
2. Second, we need to strengthen economic growth in a way that's equitable and addresses growing energy demand.
3. Third, we need to slow the warming of our planet by reducing global emissions and combatting local environmental destruction from energy.

Sustainable Energy for All initiative: SE4All

One Goal: Achieving Sustainable Energy for All by 2030

Three Targets:

ENSURING
universal access
TO MODERN ENERGY
SERVICES.

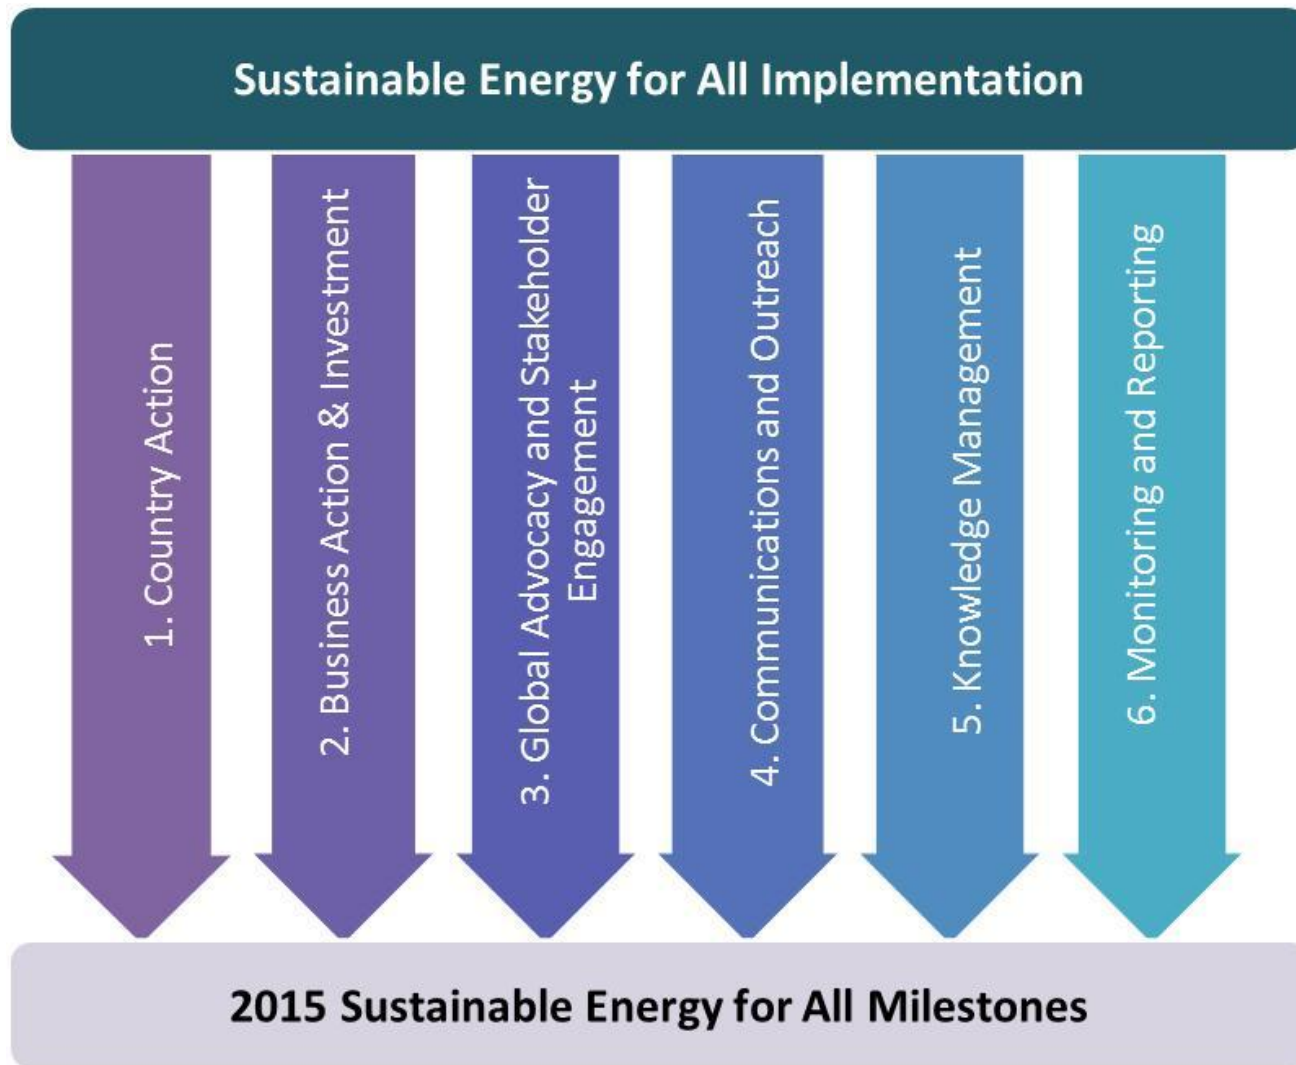

DOUBLING THE GLOBAL
RATE OF IMPROVEMENT IN
*energy
efficiency.*

DOUBLING THE SHARE OF
renewable energy
IN THE GLOBAL
ENERGY MIX.
