

at **i** we understand that without energy there is:

CHANCE FOR
A BETTER EDUCATION

WAY TO PUMP CLEAN WATER
FROM DEEP BELOW GROUND

OPPORTUNITY FOR
PROPER MEDICAL CARE

WHAT WE'VE DONE

68

PROJECTS
COMPLETED

4

COUNTRIES

Women and children spend hours each day fetching water, preventing them from going to school and earning a living.

WE INSTALL **WATER STATIONS**

throughout the village to supply water for irrigation, drinking, washing, cooking and for livestock needs.

A low-angle shot of a Black man in a white lab coat, smiling broadly and looking upwards. He is holding onto a dark metal frame. The background is a bright, slightly out-of-focus interior space with a ceiling light.

We power the homes of their staff, making it easier for the clinic to recruit and retain employees.

IN OUR SOLAR
REFRIGERATORS.**

68 BUSINESSES IN OUR 68 PROJECTS

WE INSTALL solar cell phone charging stations at each of our projects.

The business is run by a staff member.

Customers from the village pay approximately \$0.15 to charge their phones.

These funds are used by our facilities to replace light bulbs and batteries, making every project 100% self sustaining.

REPLACE LIGHT BULBS

REPLACE BATTERIES
