

SD21 project: components

SD 21 Drafters' meeting
New York, 5-6 April 2012

David Le Blanc
Division for Sustainable Development

Initial Objectives

- Construct a coherent vision of sustainable development in the 21st century
 - substantive contribution to the debate in Rio
- Takes stock of the changes having occurred since the 1992 Earth summit in the area of SD and related implementation
- Proposes a clear vision and way forward for progressing the SD agenda for :
 - the international community,
 - national governments,
 - other stakeholders.
- Mobilize substantive contributions on core topics of the Conference
 - Use knowledge produced by assessments,
 - Mobilize expertise in areas where perceived gaps exist
 - Commissioned studies

SD 21 Project components
