

Network of Regional Governments for Sustainable Development (nrg4SD)

Matthew Quinn

Head of Environment Protection
Welsh Assembly Government, UK

Llywodraeth Cynulliad Cymru
Welsh Assembly Government

What is nrg4SD?

- An independent membership organisation for governments immediately below UN member state level
- Established at the Johannesburg Summit
- Committed by its statutes to support and promote CSD, KOP and MDGs

Llywodraeth Cynulliad Cymru
Welsh Assembly Government

What is nrg4SD - continued?

- Currently co-chaired by Western Cape and the Basque Country

- A legal entity under Belgian Law

Llywodraeth Cynulliad Cymru
Welsh Assembly Government

Why regional government?

- Important tier not often formally represented – the State or Province
- Typically in forefront of implementation – spatial development, delivery agencies, regulatory powers
- A good strategic scale

Llywodraeth Cynulliad Cymru
Welsh Assembly Government

What nrg4SD does

- Sharing of knowledge and experience
- Development of policy positions
- A conduit for delivery through partnership
- Formal role with UN entities – MOUs and observer status
- Support for countries to participate

Llywodraeth Cynulliad Cymru
Welsh Assembly Government

Work on climate change

- A website – www.regional-renewables.org
- Reports for KOP
- Policy discussion – `sustainable energy and renewables`
- Action by members – adaptation policies
- Agreements and projects – tsunami; offset schemes

Welcome to regional-renewables.org

Worldwide Regional Portal for Renewable Energy
Regions all over the world are working hard to bring forward renewable energies. They are motivated by the facts that an expansion of renewable energies permits development and growth especially in remote rural areas, that renewable energies create jobs, reduce dependence on oil and protect our climate.

The aim of this Internet Portal "www.regional-renewables.org" is to exchange information and experience on renewable energies and to further extend the worldwide networking between regions in this matter. With the active co-operation of regions all over the world this web site will be a helpful instrument to strengthen renewable energies. There are multiple reasons to focus on action!

The information on this web-site is structured by regions and energy sources.
